Description: Sections 222, 223 and 249 of the Trade Act of 1974, as amended, require the Secretary of Labor to issue a determination for groups of workers as to their eligibility to apply for Trade Adjustment Assistance (TAA). After reviewing all of the information obtained for each petition for trade adjustment assistance filed with the Department, a determination is issued as to whether the statutory criteria for certification are met.

The information collected in ETA Form 9118 will be used by the Secretary to specifically determine whether petitioning worker groups that perform a service are related to production of articles. If worker groups are related to production of articles, the form will request contact information so that sufficient article production and sales data may be collected from the appropriate contact to assess whether the production that service workers support is adversely affected by trade, and to adequately assess whether the group eligibility requirements detailed in section 223 of the Trade Act of 1974, as amended, have been met.
