This request is for extension of a currently approved information collection.

United States (U.S.) commercial fishermen may file claims for compensation for losses of, or damage to, fishing gear or vessels, plus 50 percent of resulting economic losses, attributable to oil and gas activities on the U.S. Outer Continental Shelf. The report is NOAA Form 88–166 and it requests identifying information such as: Respondent's name; address; social security number; and casualty location. The information in the report is usually completed by NOAA during a telephone call with the respondent.

The application is NOAA Form 88–164 and it requires the respondent to provide information on the property and economic losses and/or damages including type of damage; purchase date and price of lost/damaged gear; and

income from recent fishing trips. It also includes an affidavit by which the applicant attests to the truthfulness of the claim.
