### Atlantic Offshore Wind Transmission Convening Workshop on Stakeholder Partnership—Sharing the Benefits and Opportunities for Atlantic Offshore Wind Transmission

**AGENCY:** U.S. Department of Energy.

**ACTION:** Notice of virtual Stakeholder  
Convening Workshop.

**SUMMARY:** The U.S. Department of  
Energy (DOE) and U.S. Department of  
the Interior (DOI)-Bureau of Ocean

Energy Management (BOEM) will hold a virtual Convening Workshop to discuss and receive feedback regarding the benefits, opportunities, and strategies for transmission development for offshore wind (OSW) projects along the Atlantic Coast of the mainland United States (from Maine to South Carolina). This Stakeholder Partnership workshop will focus on strategies to support sustainable and just development of OSW transmission that avoids and minimizes impacts to ocean co-users and marine environments; creates benefits for coastal and underserved communities; and minimizes or mitigates unavoidable negative impacts. This event is part of a series of convening workshops to seek individual advice and obtain information, in order for DOE and BOEM to develop a set of recommendations and an associated action plan for addressing near-, medium-, and long-term OSW transmission challenges. In addition, DOE encourages written comments on these subjects.

**DATES:** Tuesday, June 28, 2022 (8:00 a.m. to 12:00 p.m., Eastern Daylight Time).

**ADDRESSES:** Registration for this virtual workshop is currently available at: Atlantic Offshore Wind Stakeholder Workshop. Registrants will receive an email with call-in and webinar login information. Any comments submitted must identify the **Federal Register** Notice for the “Stakeholder Partnership—Sharing the Benefits and Opportunities for Atlantic Offshore Wind Transmission.” Comments may be submitted via email to [OSWTransmission@hq.doe.gov](mailto:OSWTransmission@hq.doe.gov). Comments are requested no later than August 1, 2022.

**FOR FURTHER INFORMATION CONTACT:** Alissa Baker, U.S. Department of Energy, Office of Electricity, 1000 Independence Ave. SW, Washington, DC 20585; Telephone: (240) 702–4890; Email: [OSWTransmission@hq.doe.gov](mailto:OSWTransmission@hq.doe.gov).

**SUPPLEMENTARY INFORMATION:** DOE and BOEM will hold stakeholder workshops to identify technical planning and development; economics and policy; and siting and permitting recommendations to address near-, medium-, and long-term OSW transmission challenges. This workshop on “Sharing the Benefits and Opportunities for Atlantic Offshore Wind Transmission” will be held in a virtual format on Tuesday, June 28, 2022 from 8:00 a.m. to 12:00 p.m. EDT. The workshop will include presentations, panel discussions, and moderated discussion. The workshop will present educational background on OSW transmission and related ongoing federal activities. Participants will individually have the opportunity to ask questions, provide input, and share feedback. Persons interested in attending this virtual workshop must register online at: Atlantic Offshore Wind Stakeholder Workshop no later than Tuesday, June 21, 2022. Please check the website for additional information, including a detailed agenda, list of presentations, resource materials, and instructions to submit comments.

#### SUPPLEMENTARY INFORMATION:

**Title:** FERC-542, Gas Pipelines Rates: Rate Tracking.

**OMB Control No.:** 1902-0070.

**Type of Request:** Three-year extension of the FERC-542 information collection requirements with no changes to the current reporting requirements.

**Abstract:** The Commission uses FERC-542 filings to verify that costs which are passed through to pipeline customers as rate adjustments are

consistent with the Natural Gas Policy Act (NGPA), 15 U.S.C. 3301-3432, and sections 4 and 5 of the Natural Gas Act (NGA), 15 U.S.C. 717c and 717d. These statutory provisions require FERC to regulate the transmission and sale of natural gas for resale in interstate commerce at just and reasonable rates. This collection of information is also in accordance with section 16 of the NGA, 15 U.S.C. 717o, which authorizes FERC to implement the NGA through its rules and regulations.

The regulations at 18 CFR part 154 include provisions that allow an interstate natural gas pipeline to submit filings seeking to:

- Recover research, development and demonstration expenditures (18 CFR 154.401);

- Recover annual charges assessed by the Commission under 18 CFR part 382 (18 CFR 154.402); and

- Pass through, on a periodic basis, a single cost or revenue item such as fuel use and unaccounted-for natural gas in kind (18 CFR 154.403).

FERC-542 filings may be submitted at any time or on a regularly scheduled basis in accordance with the pipeline company's tariff. Filings may be: (1) accepted; (2) suspended and set for hearing; (3) minimal suspension; or (4) suspended for further review, such as technical conference or some other type of Commission action. The Commission implements these filing requirements under 18 CFR part 154.

**Type of Respondents:** Jurisdictional Natural Gas Pipelines.

**Estimate of Annual Burden:**<sup>1</sup> The Commission estimates the total burden and cost for this information collection as follows:

Type of response	Average annual number of respondents	Average annual number of responses per respondent	Total number of responses	Average burden hours & cost per respondent	Total annual burden hours & total annual cost (rounded)	Cost per respondent (rounded)
	(1)	(2)	(1) * (2) = (3)	(4) <sup>2</sup>	(3) * (4) = (5)	(5) ÷ (1)
Request to Recover Costs from Customers .....	94	2	188	2 hrs; \$174 .....	324 hrs; \$28,188 .....	\$174

**Comments:** Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden and cost of the collection of information, including the validity of the methodology and assumptions used;

(3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.
