The state of Alaska, Department of Environmental Conservation (ADEC), has certified that the subject discharges comply with the applicable provisions of Sections 208(e), 301, 302, 306 and 307 of the Clean Water Act.

The state of Alaska, Department of Natural Resources, Office of Project Management and Permitting, Alaska Coastal Management Program (ACMP) determined that the GPs did not require a new ACMP review.

Regulatory Flexibility Act

Under the Regulatory Flexibility Act (RFA), 5 U.S.C. 601 *et seq.*, a Federal agency must prepare an initial regulatory flexibility analysis "for any proposed rule" for which the agency "is required by section 553 of the Administrative Procedure Act (APA), or any other law, to publish general notice of proposed rulemaking." The RFA exempts from this requirement any rule that the issuing agency certifies "will not, if promulgated, have a significant economic impact on a substantial number of small entities." EPA has concluded that NPDES general permits are permits, not rulemakings, under the APA and thus not subject to APA rulemaking requirements or the RFA. Notwithstanding that general permits are not subject to the RFA, EPA has determined that these general permits, as issued, will not have a significant economic impact on a substantial number of small entities.
