

the statement to the Contact Person listed on this notice. The statement should include the name, address, telephone number and when applicable, the business or professional affiliation of the interested person.

In the interest of security, NIH has procedures at <https://www.nih.gov/about-nih/visitor-information/campus-access-security> for entrance into on-campus and off-campus facilities. All visitor vehicles, including taxicabs, hotel, and airport shuttles will be inspected before being allowed on campus. Visitors attending a meeting on campus or at an off-campus federal facility will be asked to show one form of identification (for example, a government-issued photo ID, driver's license, or passport) and to state the purpose of their visit.

Additional Health and Safety Guidance: Before attending a meeting at an NIH facility, it is important that visitors review the NIH COVID-19 Safety Plan at <https://ors.od.nih.gov/sr/dohs/safety/NIH-covid-19-safety-plan/Pages/default.aspx> and the NIH testing and assessment web page at <https://ors.od.nih.gov/sr/dohs/safety/NIH-covid-19-safety-plan/COVID-assessment-testing/Pages/visitor-testing-requirement.aspx> for information about requirements and procedures for entering NIH facilities, especially when COVID-19 community levels are medium or high. In addition, the Safer Federal Workforce website has FAQs for visitors at <https://www.saferfederalworkforce.gov/faq/visitors/>. Please note that if an individual has a COVID-19 diagnosis within 10 days of the meeting, that person must attend virtually. (For more information please read NIH's Requirements for Persons after Exposure at <https://ors.od.nih.gov/sr/dohs/safety/NIH-covid-19-safety-plan/COVID-assessment-testing/Pages/persons-after-exposure.aspx> and What Happens When Someone Tests Positive at <https://ors.od.nih.gov/sr/dohs/safety/NIH-covid-19-safety-plan/COVID-assessment-testing/Pages/test-positive.aspx>. Anyone from the public can attend the open portion of the meeting virtually via the NIH Videocasting website (<http://videocast.nih.gov>). Please continue checking these websites, in addition to the committee website listed below, for the most up to date guidance as the meeting date approaches. DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Eunice Kennedy Shriver National Institute of Child Health and Human Development; Notice of Meeting

Pursuant to section 10(a) of the Federal Advisory Committee Act, as amended, notice is hereby given of a meeting of the National Advisory Board on Medical Rehabilitation Research.

The meeting will be held as a virtual meeting and is open to the public. Individuals who plan to view the virtual meeting and need special assistance, such as sign language interpretation or other reasonable accommodations, should notify the Contact Person listed below in advance of the meeting. The meeting will be videocast and can be accessed from the NIH Videocasting website (<http://videocast.nih.gov>).

Name of Committee: National Advisory Board on Medical Rehabilitation Research.

Date: December 5–6, 2022.

Time: December 5, 2022, 10:00 a.m. to 5:00 p.m.

Agenda: NICHD Director's report; NCMRR Director's report; Update from NABMRR Liaison to the NICHD Advisory Council; STRIVE Action Plan update; Report from NABMRR Research Infrastructure Working Group; Discussion of Stakeholder Engagement; Research Talk: Cognitive Rehabilitation and the use of Virtual Reality.

Place: Eunice Kennedy Shriver National Institute of Child, Health and Human Development, National Institutes of Health, 6710B Rockledge Drive, Room 2116, Bethesda, MD 20892–7510 (Virtual Meeting).

Time: December 6, 2022, 10:00 a.m. to 2:00 p.m.

Agenda: Updates from NIDILRR; NIH Policy Updates; Global Health and World Disability Day; Discussion on Telerehabilitation; Planning for Next Board Meeting in May 2023.

Place: Eunice Kennedy Shriver National Institute of Child, Health and Human Development, National Institutes of Health, 6710B Rockledge Drive, Room 2116, Bethesda, MD 20892–7510 (Virtual Meeting).

Contact Person: Ralph M. Nitkin, Ph.D., Deputy, National Center for Medical Rehabilitation, and Director, Biological Sciences and Career Development Program, Eunice Kennedy Shriver National Institute of Child Health and Human Development, National Institutes of Health, 6710B Rockledge Drive, Room 2116, Bethesda, MD 20892–7510, (301) 402–4206, nitkinr@mail.nih.gov.

Information is also available on the Institute's/Center's home page: <https://www.nichd.nih.gov/about/advisory/nabmrr>, where an agenda and any additional information for the meeting will be posted when available.

(Catalogue of Federal Domestic Assistance Program Nos. 93.864, Population Research;

93.865, Research for Mothers and Children; 93.929, Center for Medical Rehabilitation Research; 93.209, Contraception and Infertility Loan Repayment Program, National Institutes of Health, HHS)

Dated: October 24, 2022.

David W. Freeman,
Program Analyst, Office of Federal Advisory Committee Policy.

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

[Docket No. USCG–2019–0882]

BNSF Railway Bridge Across the Missouri River Between Bismarck and Mandan, North Dakota; Final Environmental Impact Statement

AGENCY: Coast Guard, DHS.

ACTION: Notice of availability for a Final Environmental Impact Statement.

SUMMARY: The Coast Guard announces the availability of a Final Environmental Impact Statement (EIS) for the proposed replacement of the BNSF Railway Bridge across the Missouri River between Bismarck and Mandan, North Dakota. This was prepared in compliance with the National Environmental Policy Act of 1969 (NEPA) and Council on Environmental Quality implementing regulations, and the National Historic Preservation Act (NHPA). This final EIS evaluates the potential environmental consequences of permitting the replacement of the existing BNSF Railway Bridge across the Missouri River between the cities of Bismarck and Mandan, ND, or the construction of a bridge adjacent to the existing bridge. The applicant proposes to remove the existing structure, which is eligible for listing on the National Register of Historic Places. The Coast Guard analyzed proposed alternatives, through the NEPA and NHPA processes, which included alternatives to construct the new bridge while retaining the existing bridge. The Coast Guard is making the final EIS available to the public on this docket. Section 4.0 of the final EIS identifies the preferred alternative, which is to construct a new bridge with 200-foot spans, and piers 20 feet upstream of the existing bridge, and to remove the existing structure.

DATES: The Coast Guard intends to issue a Record of Decision on November 28, 2022.

FOR FURTHER INFORMATION CONTACT: For information about this document call or

email Rob McCaskey, Coast Guard District 8 Project Officer; telephone: 314-269-2381, or email: HQS-SMB-CG-BRG@uscg.mil.

Discussion

On January 8, 2020, the Coast Guard published a notice of intent to prepare an EIS (85 FR 930). On June 7, 2021, we published a notice of availability for a draft EIS seeking public comments, and announcement of a virtual meeting (86 FR 30323) for the BNSF Railway Bridge across the Missouri River between the cities of Bismarck and Mandan, ND. Lastly, on June 14, 2021, we published a notice of extension to the public comment period (86 FR 31509), which extended the comment period to July 26, 2021.

The notice of availability solicited substantive and relevant comments related to the draft EIS. On June 30, 2021, the Coast Guard held a virtual public meeting to receive written and oral comments on the draft EIS. Public comments yielded very few substantive changes. We are now providing notice of the availability of the final EIS.

We developed a final EIS that addresses impacts associated with the alternatives mentioned in section 2.0 of the draft EIS. These impacts include those environmental control laws listed in appendix B of the Coast Guard's Bridge Permit Application Guide (available at [https://www.dco.uscg.mil/Portals/9/DCO%20Documents/5pw/Office%20of%20Bridge%20Programs/BPAG%20COMDTPUB%20P16591%203D_Sequential%20Clearance%20Final\(July2016\).pdf](https://www.dco.uscg.mil/Portals/9/DCO%20Documents/5pw/Office%20of%20Bridge%20Programs/BPAG%20COMDTPUB%20P16591%203D_Sequential%20Clearance%20Final(July2016).pdf)), as well as those impacts associated with floodplain rise, impacts to the Bismarck Water Reservoir and the Missouri River Natural Area. The final EIS also includes responses to all substantive and relevant comments received during the public comment period and virtual public meeting.

The Coast Guard, as lead agency, held 21 consultation meetings with stakeholders to satisfy the requirements of section 106 of the NHPA (54 U.S.C. 306108). On January 15, 2021, the Coast Guard and consulting parties signed a Programmatic Agreement to address the adverse effect on the existing historic bridge, and to provide third parties the opportunity to develop additional alternatives that would allow for retention of the bridge. The additional alternative presented during this process was not technically or economically feasible, so the Coast Guard and consulting parties developed a Memorandum of Agreement, which dictates mitigation measures for removal of the existing bridge. A consulting

party, the Friends of the Rail Bridge, initiated termination of the Programmatic Agreement on February 22, 2022, and after additional consultation meetings, it was terminated on June 19, 2022. The Memorandum of Agreement was signed on September 27, 2022, and is available in appendix B of the final EIS.

This notice is issued under authority of NEPA, 42 U.S.C. 4321 *et seq.*, Council on Environmental Quality implementing regulations in 40 CFR parts 1500 through 1508, and 5 U.S.C. 552(a).

Brian L. Dunn,

Chief, U.S. Coast Guard, Office of Bridge Programs.

BILLING CODE 9110-04-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA-2022-0002; Internal Agency Docket No. FEMA-B-2283]

Proposed Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice.

SUMMARY: Comments are requested on proposed flood hazard determinations, which may include additions or modifications of any Base Flood Elevation (BFE), base flood depth, Special Flood Hazard Area (SFHA) boundary or zone designation, or regulatory floodway on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports for the communities listed in the table below. The purpose of this notice is to seek general information and comment regarding the preliminary FIRM, and where applicable, the FIS report that the Federal Emergency Management Agency (FEMA) has provided to the affected communities. The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Comments are to be submitted on or before January 26, 2023.

ADDRESSES: The Preliminary FIRM, and where applicable, the FIS report for

each community are available for inspection at both the online location <https://hazards.fema.gov/femaportal/prelimdownload> and the respective Community Map Repository address listed in the tables below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at <https://msc.fema.gov> for comparison.

You may submit comments, identified by Docket No. FEMA-B-2283, to Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Rick Sacbibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW, Washington, DC 20472, (202) 646-7659, or (email) patrick.sacbibit@fema.dhs.gov; or visit the FEMA Mapping and Insurance eXchange (FMIX) online at https://www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: FEMA proposes to make flood hazard determinations for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. These flood hazard determinations are used to meet the floodplain management requirements of the NFIP.

The communities affected by the flood hazard determinations are provided in the tables below. Any request for reconsideration of the revised flood hazard information shown on the Preliminary FIRM and FIS report that satisfies the data requirements outlined in 44 CFR 67.6(b) is considered an appeal. Comments unrelated to the flood hazard determinations also will be considered before the FIRM and FIS report become effective.

Use of a Scientific Resolution Panel (SRP) is available to communities in support of the appeal resolution
