

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket No. CP15–133–000]

Columbia Gas Transmission, LLC; Notice of Application

Take notice that on March 27, 2015, Columbia Gas Transmission, LLC (Columbia), filed an application with the Federal Energy Regulatory Commission pursuant to sections 7(b) of the Natural Gas Act (NGA) requesting authority to abandon by sale to Mountaineer Gas Company certain natural gas facilities located in Cabell and Putnam Counties West Virginia. Specifically, Columbia requests authority to abandon by sale approximately 16.15 miles of its Line SM–108 and associated appurtenances as well as the service currently provided through the facilities. Additionally, Columbia requests that the Commission find the facilities, once sold, exempt from the Commission's jurisdiction pursuant to section 1(b) of the NGA.

This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208–3676 or TTY, (202) 502–8659.

Any questions regarding this application should be directed to counsel for Columbia, Tyler R. Brown, Senior Counsel, Columbia Gas Transmission LLC, 5151 San Felipe Suite 2500, Houston, TX 77056 by telephone at (713) 386–3797 or by email at tbrown@nsource.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the

completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the

Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and seven copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: April 29, 2015.

Dated: April 8, 2015.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY**Federal Energy Regulatory Commission**

[Docket Nos. PF15–10–000; PF15–11–000]

NEXUS Gas Transmission, LLC, Texas Eastern Transmission, LP; Notice of Intent To Prepare an Environmental Impact Statement for the Planned Nexus Gas Transmission Project and Texas Eastern Appalachian Lease Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meetings

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that will discuss the environmental impacts of the NEXUS Gas Transmission (NEXUS) Project and Texas Eastern Appalachian Lease (TEAL) Project involving construction and operation of facilities by NEXUS Gas Transmission, LLC (NEXUS) in Ohio and Michigan and Texas Eastern Transmission, LP (Texas Eastern) in Ohio. The projects are separate, but connected, interstate natural gas transmission pipeline projects. The environmental impacts of both projects will be considered in one EIS, which will be used by the Commission in its decision-making process to determine whether the NEXUS and TEAL Projects are in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the projects. Your input will help the Commission staff determine what issues they need to
