

F. Executive Order 13175: Consultation and Coordination With Indian Tribal Governments

This action does not have tribal implications as specified in Executive Order 13175 (65 FR 67249, November 9, 2000), because it will not have substantial direct effects on Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes. This rule only affects some applicators of RUPs that are certified under an EPA federal plan by reducing their paperwork burden, and it is not expected to impact human health or the environment or impose any additional burden or restrictions, or otherwise affect Indian tribes. Thus, Executive Order 13175 does not apply to this action.

G. Executive Order 13045: Protection of Children From Environmental Health Risks and Safety Risks

EPA interprets Executive Order 13045 (62 FR 19885, April 23, 1997) as applying only to those regulatory actions that concern health or safety risks, such that the analysis required under section 5–501 of the Executive Order has the potential to influence the regulation. This action is not subject to Executive Order 13045 because it does not establish an environmental standard intended to mitigate health or safety risks, nor is it an “economically significant regulatory action” as defined by Executive Order 12866.

H. Executive Order 13211: Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use

This action is not a “significant regulatory action” as defined in Executive Order 13211 (66 FR 28355, May 22, 2001), because it is not likely to have a significant adverse effect on the supply, distribution, or use of energy.

I. National Technology Transfer and Advancement Act (NTTAA)

This action does not involve technical standards that would require the consideration of voluntary consensus standards pursuant to section 12(d) of NTTAA (15 U.S.C. 272 note).

J. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Populations

This action does not have disproportionately high and adverse human health or environmental effects on minority or low-income populations

because it does not affect the level of protection provided to human health or the environment. Therefore, this action does not involve special consideration of environmental justice-related issues as specified in Executive Order 12898 (59 FR 7629, February 16, 1994).

VI. Congressional Review Act

Pursuant to the Congressional Review Act, 5 U.S.C. 801 *et seq.*, EPA will submit a report containing this rule and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. This rule is not a “major rule” as defined by 5 U.S.C. 804(2).

List of Subjects in 40 CFR Part 171

Environmental protection, Indian-lands, Intergovernmental relations, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: June 21, 2012.

James Jones

Acting Assistant Administrator, Office of Chemical Safety and Pollution Prevention.

Therefore, 40 CFR chapter I is amended as follows:

PART 171—[AMENDED]

- 1. The authority citation for part 171 continues to read as follows:

Authority: 7 U.S.C. 136i and 136w.

- 2. Section 171.11 is amended by revising paragraph (e) to read as follows:

§ 171.11 Federal certification of pesticide applicators in States or on Indian Reservations where there is no approved State or Tribal certification plan in effect.

* * * * *

(e) *Recognition of other certificates.* The Administrator may issue a certificate to an individual possessing any other valid Federal, State, or Tribal certificate without further demonstration of competency. The individual shall submit the EPA certification form and written evidence of valid certification to the appropriate EPA Regional Office. The Administrator may deny issuance of such certificate if the standards of competency for each category or subcategory identified in the other Federal, State, or Tribal certificate are not sufficiently comparable to justify waiving further demonstration of competency. The Administrator may revoke, suspend, or modify such certificate if the Federal, State, or Tribal certificate upon which it is based is revoked, suspended, or modified. Unless suspended or revoked, a certificate issued under this paragraph

is valid until the expiration date of the Federal, State, or Tribal certificate.

BILLING CODE 6560–50–P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 64

[Docket ID FEMA–2012–0003; Internal Agency Docket No. FEMA–8235]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: This rule identifies communities where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP) that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this rule, the suspension will not occur and a notice of this will be provided by publication in the **Federal Register** on a subsequent date.

DATES: Effective Dates: The effective date of each community’s scheduled suspension is the third date (“Susp.”) listed in the third column of the following tables.

FOR FURTHER INFORMATION CONTACT: If you want to determine whether a particular community was suspended on the suspension date or for further information, contact David Stearrett, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646–2953.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase Federal flood insurance that is not otherwise generally available from private insurers. In return, communities agree to adopt and administer local floodplain management measures aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits the sale of NFIP flood

insurance unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59. Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be available in the community. We recognize that some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities will not be suspended and will continue to be eligible for the sale of NFIP flood insurance. A notice withdrawing the suspension of such communities will be published in the **Federal Register**.

In addition, FEMA publishes a Flood Insurance Rate Map (FIRM) that identifies the Special Flood Hazard Areas (SFHAs) in these communities. The date of the FIRM, if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act not in connection with a flood) may be provided for construction or acquisition of buildings in identified SFHAs for communities not participating in the NFIP and identified for more than a year on FEMA's initial FIRM for the community as having

flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column. The Administrator finds that notice and public comment procedures under 5 U.S.C. 553(b), are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives 6-month, 90-day, and 30-day notification letters addressed to the Chief Executive Officer stating that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. Since these notifications were made, this final rule may take effect within less than 30 days.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Administrator has determined that this rule is exempt from the requirements of the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, Section 1315, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory requirements, and

after the effective date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

List of Subjects in 44 CFR Part 64

Flood insurance, Floodplains.

Accordingly, 44 CFR part 64 is amended as follows:

PART 64—[AMENDED]

- 1. The authority citation for part 64 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp.; p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp.; p. 376.

§ 64.6 [Amended]

- 2. The tables published under the authority of § 64.6 are amended as follows:

[Docket No. 120213124-1066-02]

RIN 0648-XC088

Fisheries of the Caribbean, Gulf of Mexico, and South Atlantic; Reef Fish Fishery of the Gulf of Mexico; Extension of the 2012 Gulf of Mexico Recreational Red Snapper Season

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; extension.

SUMMARY: NMFS extends the recreational fishing season for the red snapper component of the reef fish fishery in the exclusive economic zone (EEZ) of the Gulf of Mexico (Gulf). NMFS previously determined the recreational red snapper quota would be reached by 12:01 a.m., local time, July 11, 2012. However, due to severe weather conditions in the central and northeastern Gulf during the first 26 days in June, fishing opportunities were restricted during the beginning of the recreational fishing season. NMFS has projected the quota will not be reached by the current closure date. Therefore, NMFS is extending the recreational red snapper fishing season for 6 days to allow the remainder of the quota to be harvested. The intent of this action is to provide fishermen the opportunity to harvest the recreational red snapper quota, and the opportunity to achieve the optimum yield for the fishery, thus enhancing social and economic benefits to the fishery.

DATES: The extension is effective from 12:01 a.m., local time, July 11, 2012, until 12:01 a.m., local time, July 17, 2012. The season will then be closed until it reopens on June 1, 2013, the beginning of the 2013 recreational fishing season.

FOR FURTHER INFORMATION CONTACT: Steve Branstetter, 727-824-5305.

SUPPLEMENTARY INFORMATION: The Gulf reef fish fishery is managed under the

Fishery Management Plan for the Reef Fish Resources of the Gulf of Mexico (FMP). The FMP was prepared by the Gulf of Mexico Fishery Management Council (Council) and is implemented through regulations at 50 CFR part 622 under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act).

On June 29, 2012, NMFS implemented a recreational quota for Gulf red snapper of 3.959 million lb (1.796 million kg) and a commercial quota of 4.121 million lb (1.869 million kg) through a regulatory amendment (77 FR 31734, May 30, 2012). These quotas are based on the Council's established acceptable biological catch of 8.080 million lb (3.665 million kg) for the 2012 fishing year, and the allocation ratios in the FMP.

The Magnuson-Stevens Act requires NMFS to close the recreational red snapper component of the Gulf reef fish fishery in Federal waters when the quota is met or projected to be met. Based on 2011 recreational landings data, NMFS projected the recreational quota would be met on or by July 10, 2012. Therefore, in the rule that published May 30, 2012 (77 FR 31734), NMFS announced the recreational red snapper fishing season would close at 12:01 a.m., local time, July 11, 2012, which constituted a 40-day fishing season.

Landings and effort data are not available in-season to determine if the quota will be met on July 10, 2012. However, the central and northeastern Gulf experienced severe weather conditions during the first 26 days of the 2012 recreational red snapper fishing season and it is likely that fishing effort and landings are less than projected. In addition to tropical storm Debby in late June, poor weather conditions persisted prior to that time in the central and northeastern Gulf. The majority of recreational harvest in the Gulf comes from the northern and central parts of the Gulf. Weather data from four buys stationed throughout the Gulf were used as proxies for determining days when fishing did not occur or when effort was reduced. Wave heights and wind speeds have been greater in June 2012 than June 2011 for all areas of the Gulf, except Texas. Because of this reduced effort, NMFS has projected the recreational red snapper quota will not be met by the July 11, 2012, closing date. Based on the assumption that weather will improve over the next 2 to 3 weeks and, thus, fishing effort will return to expected rates, NMFS projects the recreational red snapper season can be extended for

an additional 6 days, and will close at 12:01 a.m. local time on July 17, 2012. The season will then be closed until 12:01 a.m., local time, June 1, 2013, the beginning of the 2013 recreational fishing season.

During the open period, the bag and possession limit for recreational Gulf red snapper is two fish. However, no red snapper may be retained by the captain and crew of a vessel operating as a charter vessel or headboat. The bag limit for such captain and crew is zero.

During the closed period, the bag and possession limit for recreational Gulf red snapper is zero. A person aboard a vessel for which a Federal charter vessel/headboat permit for Gulf reef fish has been issued, must also abide by these closure provisions in state waters.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(3)(B). Allowing prior notice and opportunity for public comment on the season extension is unnecessary because the rule establishing the annual quota has already been subject to notice and comment, and all that remains is to notify the public that additional harvest remains in the established quota and, therefore, the fishery will be extended for a limited time.

This rule relieves a restriction by extending the recreational red snapper fishing season. Because it relieves a restriction, this rule is not subject to the 30-day delayed effectiveness provision of the Administrative Procedures Act pursuant to 5 U.S.C. 553(d)(1).

This action is taken under 50 CFR 622.43(a) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: June 29, 2012.

James P. Burgess,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
