AGENCY: Employment and Training Administration, Labor.

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. Currently, the Employment and Training Administration is soliciting comments concerning the collection of data about the extension of the currently approved reporting and recordkeeping system to support the Reintegration of Ex-Offenders-Adult (RExO-Adult) grants, which expires on March 31, 2012.

A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the addressee section of this notice.

DATES: Written comments must be submitted to the office listed in the addressee's section below on or before January 3, 2012.

ADDRESSES: Submit written comments to Employment and Training Administration, 200 Constitution Avenue NW., Washington, DC 20210,

SUPPLEMENTARY INFORMATION:

I. Background

In applying for the Reintegration of Ex-Offender-Adult (formerly Prisoner Reentry Initiative) grants, faith-based and community organization grantees agree to submit participant data and quarterly aggregate reports for individuals who receive services through RExO-Adult programs and their partnerships with One-Stop Centers, local Workforce Investment Boards, employment providers, the criminal justice system, and local housing authorities. The reports include aggregate data on demographic characteristics, types of services received, placements, outcomes, and follow-up status. Specifically, they summarize data on participants who received employment and placement services, housing assistance, mentoring, and other services essential to reintegrating ex-offenders through RExO-Adult programs.

This requests an extension of the currently approved information collection to meet the reporting and recordkeeping requirements of the Reintegration of Ex-Offenders-Adult grants through an ETA-provided, Web-based Management Information System (MIS). In addition to reporting participant information and performance-related outcomes, RExO-Adult grantees demonstrate their ability to establish effective partnerships with the criminal justice system, local Workforce Investment Boards, local housing authorities, and other partner agencies. They also document the cost effectiveness of their projects.

The MIS reporting and recordkeeping system incorporates each of these aspects necessary for program evaluation.

Five outcome measures are used to measure success in the RExO-Adult grants: entered employment rate, employment retention rate, attainment of a degree or certificate, average six-month post-program earnings, and recidivism rate.

Several of these conform to the common performance measures implemented across federal job training programs as of July 1, 2005. By standardizing the reporting and performance requirements of different programs, the common measures give ETA the ability to compare across programs the core goals of the workforce system—how many people entered jobs; how many stayed employed; and how

many successfully completed an educational program. Although the common measures are an integral part of ETA's performance accountability system, these measures provide only part of the information necessary to effectively oversee the workforce investment system. ETA also collects data from RExO-Adult grantees on program activities, participants, and outcomes that are necessary for program management and for conveying full and accurate information on the performance of RExO-Adult programs to policymakers and stakeholders.

This information collection maintains a reporting and record-keeping system for a minimum level of information collection that is necessary to comply with Equal Opportunity requirements, to hold RExO-Adult grantees appropriately accountable for the Federal funds they receive, including

common performance measures, and to allow the Department to fulfill its oversight and management responsibilities.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
