Therefore, free and valued reclaims processed with this code will not reduce the deliverer's Memo Seg. Second, a special reclaim reason code will be created for free and valued deliver orders that will reduce Memo Seg. Therefore, free and valued reclaims processed with this code will always reduce the deliverer's Memo Seg. Third, reason codes will be added to the list of exception reason codes for non-optional Memo Seg procedures. Therefore, free deliveries processed with these codes will not automatically reduce Memo Seg. Fourth, additional reason codes will be added to Memo Seg indicators. Fifth, same-day Matched Reclaims will automatically increase the Memo Seg of the receiver of the reclaim if the original delivery decreased Memo Seg regardless of the reclaim reason code. Sixth, pledges will reduce Turnaround position. All enhancements are further described in DTC's Important Notice No. 3733, Memo Segregation Enhancement, which was made available to participants starting September 5, 2002. Important Notice No. 3733 is attached as an exhibit to DTC's proposed rule change.

The proposed rule change is consistent with the requirements of section 17A of the Act and the rules and regulations thereunder applicable to DTC because it will give participants additional options in using DTC's Memo Seg procedures. The proposed rule change will be implemented consistently with the safeguarding of securities and funds in DTC's custody or control or for which it is responsible since the proposed rule change will modify DTC's existing Memo Seg procedures.
