New England Hydropower Company, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On July 3, 2025, New England Hydropower Company, LLC, filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Black Rock Dam Hydroelectric Project (Black Rock Project) on the Schuylkill River in Chester and Montgomery Counties, near the Borough of Phoenixville and the Village of Mont Clare in Pennsylvania. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed Black Rock Project would consist of the following: (1) an existing 400-foot-long, 11-foot-high concrete capped timber crib dam; (2) an existing impoundment having a surface area of 184 acres and a storage capacity of 221 acre-feet at an elevation of 89 feet North American Vertical Datum of 1988 (NAVD88); (3) two new 24-foot-wide, 87-foot-long turbine bays each housing two turbine-generator units—each unit with a capacity of 300 kilowatts (kW) for a total capacity of 1.2 megawatts (MW); (4) a new 16-foot-wide, 35-foot-long electrical control building; (5) a new 600-foot-long transmission line; and (6) appurtenant facilities. The proposed project would have an annual generation of 6,000 megawatt-hours.

Applicant Contact: Michael Kerr, New England Hydropower Company, LLC, 100 Cummings Center, Suite 451C, Beverly, MA 01915; phone: (978) 360–2547.
