#### Background

In a letter dated January 16, 2001, the USTR requested that the Commission, pursuant to section 332(g) of the Tariff Act of 1930, conduct an investigation of the natural gas services markets in countries where significant market reform, privatization, and liberalization has occurred or is ongoing. The foreign markets to be examined are: Argentina, Australia, Brazil, Canada, Korea, Japan, Mexico, Spain, and the United Kingdom. As requested, in its report, the Commission will (1) describe the nature of reform, including, but not limited to the extent of privatization, vertical and horizontal restructuring, and consumer choice, as applicable; (2) examine current market access conditions, including, but not limited to measures affecting network access, investment, and trading (i.e., the exchange of natural gas contracts through financial markets), as applicable; and (3) identify common regulatory practices adopted by multiple countries, insofar as they exist. For the purpose of this study, natural gas

services will focus on the downstream natural gas market, including the following segments: transmission (including transport and storage); distribution; wholesale and retail supply; and trading.

This letter follows a similar request made by the USTR in November 1999 for the Commission to conduct an investigation of the electric power services markets in Argentina, Australia, Brazil, Canada, Chile, the European Union, Japan, New Zealand, and Venezuela. The Commission submitted its report to the USTR on November 23, 2000, copies of which may be obtained by contacting the Office of the Secretary at 202-205-2000 or by accessing the USITC Internet server (<http://www.usitc.gov>). The USTR asked that the Commission furnish the natural gas report by October 16, 2001, and that the Commission make the report available to the public in its entirety.
