

employment or contractual relationship exists between the IBI Supervisor and IBI Tutor. Such determination is conclusive and may not be appealed.

(8) Conditions of authorization.

An applicant must also meet the following conditions to be eligible for authorization as a TRICARE corporate services provider under this demonstration project:

(A) Meet the qualifications and requirements for IBI Supervisors established by the Director, TRICARE Management Activity or designee; and

(B) Ensure that IBI Tutors meet the requirements for TRICARE authorization specified by The Director, TRICARE Management Activity or designee; and

(C) Comply with all applicable organizational and individual licensing or certification requirements that are extant in the state, county, municipality, or other political jurisdiction in which the provider renders services; and

(D) Has entered into a participation agreement approved by the Director, TRICARE Management Activity, or designee, which complies with the participation agreement requirements established by the Director; and

(E) Pricing and payment methodology: The pricing and payment of procedures rendered by a provider authorized under this demonstration project shall be limited to those methods for pricing and payment allowed by 32 CFR part 199 which the Director, TRICARE Management Activity, or designee, determines contribute to the efficient management of this demonstration project.

(F) Termination of participation agreement. A provider may terminate a participation agreement upon 45 days written notice to the Director, TRICARE Management Activity.

This demonstration will test the advisability and feasibility of permitting TRICARE reimbursement for IBI services delivered by non-professional providers, under a modified corporate services model, in the absence of state or industry oversight. Neither the TRICARE Basic Program nor the ECHO program currently authorizes reimbursement for providers working within this type of unregulated corporate structure. Should the demonstration result in a determination to make a permanent change to the TRICARE benefit to permit reimbursement of services provided by IBI tutors under a corporate services model, such decision would require a change to the Code of Federal Regulations.

In addition to provider qualifications, the demonstration project may outline

criteria and requirements for covered services, limitations to the benefit, beneficiary eligibility, data gathering and use requirements and documentation of treatment effectiveness that are specific to services delivered under the demonstration project.

F. Evaluation

An evaluation of the demonstration will be conducted. The evaluation will be designed to use a combination of administrative and survey measures of health care outcomes (clinical, utilization, financial, and humanistic measures) to provide analyses and comment on the effectiveness of the demonstration in meeting its goal of providing increased access to safe, efficacious, and quality behavioral services for military children with autism.
