Title: Request for Approval to Sell Capital Assets.

OMB Control Number: 0572-0020.

Type of Request: Extension of a currently approved collection.

Abstract: A borrower's assets provide the security for a government loan. The selling of assets reduces the security and increases the risk to the government. RUS electric utility borrowers complete this form to request RUS approval in order to sell capital assets when the fair market value exceeds 10 percent of the borrower's net utility plant.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget's (OMB) regulation (5 CFR 1320) implementing provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13) requires that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8(d)]. Title: Telecommunications Field Trials.

OMB Control Number: 0572-0133.

Type of Request: Extension of a currently approved collection.

Abstract: To protect the equity of loans it makes, RUS Telecommunications Program establishes the minimum acceptable performance criteria for materials and equipment to be employed on telecommunication systems financed by

RUS. These specifications cover a variety of materials and equipment, ranging from multipair cables for direct burial in the earth, to highly sophisticated, computerized central office digital switches. Manufacturers wishing to sell their products to RUS borrowers, request RUS consideration for acceptance of their products and submit data demonstrating their products' compliance with RUS specifications and that the products are otherwise acceptable for use on rural telecommunications systems. The review and determination of product acceptability is made to help assure that the products will perform properly and provide service lives that assure reliable revenue incomes and repayment of RUS loans funds in a manner consistent with the terms and conditions of the RUS loan. Unacceptable products may fail prematurely and interrupt service, require costly replacements, and reduce revenues. Without this collection, RUS has no means of determining the acceptability of advanced technology in a manner that is timely enough for RUS borrowers to take advantage of the improved benefits and promise that such products may provide for rural America.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 3 hours per response.

Respondents: Not-for-profit institutions.

Estimated Number of Respondents: 4.

Estimated Number of Responses per Respondent: 6.

Estimated Total Annual Burden on Respondents: 72 hours.

Dated: February 6, 2006.
