SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–94070; File No. SR–ISE–2022–02]

Self-Regulatory Organizations; Nasdaq ISE, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Reduce ISE's Options Regulatory Fee

January 26, 2022.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b–4 thereunder,² notice is hereby given that on January 20, 2022, Nasdaq ISE, LLC (“ISE” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I and II, below, which Items have been prepared by the Exchange. The Commission is

publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend ISE's Pricing Schedule at Options 7, Section 9, Part C, to reduce the ISE Options Regulatory Fee or “ORF”.

While the changes proposed herein are effective upon filing, the Exchange has designated the amendments become operative on February 1, 2022.

The text of the proposed rule change is available on the Exchange's website at <https://listingcenter.nasdaq.com/rulebook/ise/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

ISE previously filed to waive its ORF from October 1, 2021 through January 31, 2022.³ The Waiver Filing provided that ISE would continue monitoring the amount of revenue collected from the ORF to determine if regulatory revenues would exceed regulatory costs when it recommenced assessing ORF on February 1, 2022. If so, the Exchange committed to adjust its ORF.⁴ At this time, after a review of its regulatory revenues and regulatory costs, the Exchange proposes to reduce the ORF from \$0.0018 (the amount of the ORF prior to the waiver) to \$0.0014 per contract side as of February 1, 2022, to ensure that revenue collected from the ORF, in combination with other

regulatory fees and fines, does not exceed the Exchange's total regulatory costs.

The options industry continues to experience high options trading volumes and volatility. At this time, ISE believes that the options volume it experienced in the second half of 2021 is likely to persist into 2022. The anticipated options volume would impact ISE's ORF collection which, in turn, has caused ISE to propose reducing the ORF to ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, would not exceed the Exchange's total regulatory costs.

Collection of ORF

Upon recommencement of the ORF on February 1, 2022,⁵ ISE will assess its ORF for each customer option transaction that is either: (1) Executed by a Member on ISE; or (2) cleared by an ISE Member at The Options Clearing Corporation (“OCC”) in the customer range,⁶ even if the transaction was executed by a non-Member of ISE, regardless of the exchange on which the transaction occurs.⁷ If the OCC clearing member is a ISE Member, ORF is assessed and collected on all cleared customer contracts (after adjustment for CMTA⁸); and (2) if the OCC clearing member is not a ISE Member, ORF is collected only on the cleared customer contracts executed at ISE, taking into account any CMTA instructions which may result in collecting the ORF from a non-Member.⁹

In the case where a Member both executes a transaction and clears the transaction, the ORF will be assessed to and collected from that Member. In the case where a Member executes a transaction and a different Member

⁵ Prior to the Waiver Filing, the Exchange similarly collected ORF as described herein.

⁶ Participants must record the appropriate account origin code on all orders at the time of entry of the order. The Exchange represents that it has surveillances in place to verify that members mark orders with the correct account origin code.

⁷ The Exchange uses reports from OCC when assessing and collecting the ORF.

⁸ CMTA or Clearing Member Trade Assignment is a form of “give-up” whereby the position will be assigned to a specific clearing firm at OCC.

⁹ By way of example, if Broker A, an ISE Member, routes a customer order to CBOE and the transaction executes on CBOE and clears in Broker A's OCC Clearing account, ORF will be collected by ISE from Broker A's clearing account at OCC via direct debit. While this transaction was executed on a market other than ISE, it was cleared by an ISE Member in the member's OCC clearing account in the customer range, therefore there is a regulatory nexus between ISE and the transaction. If Broker A was not an ISE Member, then no ORF should be assessed and collected because there is no nexus; the transaction did not execute on ISE nor was it cleared by an ISE Member.
