The National Environmental Policy Act Process

The production of the EIS is part of the Commission's overall National Environmental Policy Act review process. Commission staff will independently analyze the proposed Project and prepare a draft EIS, which will be issued for public comment. Commission staff will consider all timely comments received during the comment period on the draft EIS and revise the document, as necessary, before issuing a final EIS. Any draft and final EIS will be available in electronic format in the public record through eLibrary² and the Commission's natural gas environmental documents web page (<https://www.ferc.gov/industries-data/natural-gas/environmental/environmental-documents>).

Schedule for Environmental Review

This notice identifies the Commission staff's planned schedule for completion of a final EIS for the Project, which is based on an issuance of the draft EIS in June 2021.

Issuance of Notice of Availability of the final EIS: September 10, 2021
90-day Federal Authorization Decision Deadline: December 9, 2021

If a schedule change becomes necessary for the final EIS, an additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.
