

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Activity	Number of annual respondents	Number of annual responses	Completion time per response	Annual burden hours
Applications	40	40	12 hours	480
Reports	10	20	30 hours	600
Totals	50	60		1,080

Abstract: Section 8 of the Endangered Species Act (16 U.S.C. 1531–43) authorizes the establishment of the Wildlife Without Borders—Amphibians in Decline grant program to fund projects that conserve the world's rapidly declining amphibian species. This program will support activities that address threats to frogs, toads, salamanders, newts, and caecilians that face an unprecedented threat of extinction. Funding will be made available for conservation of species with native ranges in countries with the greatest need for conservation funding.

Applicants submit proposals for funding in response to a Notice of Funding Availability that we publish on Grants.gov and the program web page. Applications consist of:

- (1) Cover page with basic project details (FWS Form 3–2338B).
 - (2) Project summary and narrative.
 - (3) Letter of appropriate government endorsement.
 - (4) Brief curricula vitae for key project personnel.
 - (5) Complete Standard Forms 424 and 424b (non-domestic applicants do not submit the standard forms).
- Applications may also include, as appropriate, a copy of the organization's Negotiated Indirect Cost Rate Agreement (NIRCA) and any additional documentation supporting the proposed project.

All assistance awards under this program have a maximum reporting requirement of a:

- (1) Mid-term report (performance report and a financial status report) due within 30 days of the conclusion of the first half of the project period, and
- (2) Final report (performance and financial status report and copies of all deliverables, photographic documentation of the project and products resulting from the project) due within 90 days of the end of the performance period.

Comments: On April 14, 2010, we published in the **Federal Register** (75 FR 19420) a notice of our intent to request that OMB renew this information collection. In that notice, we solicited comments for 60 days, ending on June 14, 2010. We received three comments in response to that notice.

One commenter voiced opposition to spending tax dollars for this program. Another commenter supported the program and expressed interest in applying for a grant. The third commenter also expressed interest in applying for a grant. None of the commenters addressed the information collection requirements, and we did not make any changes to our collection. We sent a copy of the NOFA to each individual interested in applying.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Dated: July 14, 2010.

Hope Grey,

*Information Collection Clearance Officer,
Fish and Wildlife Service.*

Proposed Information Collection; OMB Control Number 1018-0070; Incidental Take of Marine Mammals During Specified Activities

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: We (Fish and Wildlife Service) will ask the Office of Management and Budget (OMB) to approve the information collection (IC) described below. As required by the Paperwork Reduction Act of 1995 and as part of our continuing efforts to reduce paperwork and respondent burden, we invite the general public and other Federal agencies to take this opportunity to comment on this IC. This IC is scheduled to expire on November 30, 2010. We may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: To ensure that we are able to consider your comments on this IC, we must receive them by September 20, 2010.

ADDRESSES: Send your comments on the IC to Hope Grey, Information Collection Clearance Officer, Fish and Wildlife Service, MS 222–ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203 (mail); or hope_grey@fws.gov (e-mail).

FOR FURTHER INFORMATION CONTACT: To request additional information about this IC, contact Hope Grey by mail or e-mail (see ADDRESSES) or by telephone at (703) 358–2482.

SUPPLEMENTARY INFORMATION:

I. Abstract

This revised IC combines the information collection requirements associated with specified marine mammal activities in the Beaufort Sea and Chukchi Sea and the adjacent coast of Alaska. The Office of Management and Budget approved the information collection requirements associated with

oil and gas exploration activities in the Chukchi Sea and assigned OMB Control No. 1018-0139, which expires June 30, 2011. If OMB approves this combined request, we will discontinue OMB Control No. 1018-0139.

The Marine Mammal Protection Act (MMPA) of 1972, as amended (16 U.S.C. 1361 et seq.) imposed, with certain exceptions, a moratorium on the taking of marine mammals. Section 101(a)(5)(A) of the MMPA directs the Secretary of the Interior to allow, upon request by citizens of the United States, the taking of small numbers of marine mammals incidental to specified activities (other than commercial fishing) if the Secretary makes certain findings and prescribes specific regulations that, among other things, establish permissible methods of taking.

Applicants seeking to conduct activities must request a Letter of

Authorization (LOA) for the specific activity and submit onsite monitoring reports and a final report of the activity to the Secretary. This is a nonform collection. Regulations at 50 CFR 18.27 outline the procedures and requirements for submitting a request. Specific regulations governing authorized activities in the Beaufort Sea are in 50 CFR 18, subpart J. Regulations governing authorized activities in the Chukchi Sea are in 50 CFR 18, subpart I. These regulations provide the applicant with a detailed description of information that we need to evaluate the proposed activity and determine whether or not to issue specific regulations and, subsequently, LOAs.

We use the information to verify the finding required to issue incidental take regulations, to decide if we should issue an LOA, and, if issued, what conditions

should be in the LOA. In addition, we will analyze the information to determine impacts to the marine mammals and the availability of those marine mammals for subsistence purposes of Alaska Natives.

II. Data

OMB Control Number: 1018-0070.

Title: Incidental Take of Marine Mammals During Specified Activities, 50 CFR 18.27 and 50 CFR 18, Subparts I and J.

Service Form Numbers: None.

Type of Request: Revision of currently approved collection.

Affected Public: Oil and gas industry companies.

Respondent's Obligation: Required to obtain or retain a benefit.

Frequency of Collection: On occasion.

Number of Respondents: 25 or less.

Activity	Number of annual responses	Completion time per response	Annual burden hours
One-time application for procedural regulations	2	300 hours	600
LOA requests	25	24 hours	600
Onsite monitoring and observation reports	150	1.5 hours	225
Final monitoring report	25	8 hours	200
Totals	202		1,625

III. Request for Comments

We invite comments concerning this IC on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this IC. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: July 13, 2010.

Hope Grey,

*Information Collection Clearance Officer,
Fish and Wildlife Service.*

BILLING CODE 4310-55-S

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Intent to Repatriate Cultural Items: High Desert Museum, Bend, OR

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3005, of the intent to repatriate cultural items in the possession of the High Desert Museum, Bend, OR, that meet the definition of "unassociated funerary objects" or "sacred objects" under 25 U.S.C. 3001.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the cultural items. The National Park Service is not

responsible for the determinations in this notice.

In 1990, Native American cultural items were donated to the High Desert Museum by the Roger J. Bounds Foundation, in the form of the Doris Swayze Bounds Collection. Between the 1950s and 1970s, Doris Bounds collected the majority of the items through purchases and gifts. There are seven objects that meet the definition of "unassociated funerary objects" or "sacred objects." The three unassociated funerary objects are one pair of moccasins, one single moccasin, and one beaded necklace. The four sacred objects are one beaded fetish lizard-shaped object, one whistle with feathered adornment, one headdress, and one scalp lock.

Upon the initial accession of the objects into the High Desert Museum's collection in 1990, a number of scholars and Native American representatives from Columbia Plateau, Great Basin, and Plains tribes, identified the seven objects as being culturally sensitive or specific grave items of the Sioux or Assiniboine. Since 2004, the High Desert Museum has consulted with the Assiniboine and Sioux Tribes of the Fort Peck Indian Reservation, Montana. During consultation, the NAGPRA representative of the Assiniboine and Sioux Tribes of the Fort Peck Indian
