Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the

SUPPLEMENTARY INFORMATION:

Title: Part 68, Connection of Terminal Equipment to the Telephone Network.

Form No.: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 58,520.

Estimated Time per Response: .05—24 hours.

Frequency of Response: On occasion reporting requirement, recordkeeping requirement, and third party disclosure requirement.

Total Annual Burden: 32,027 hours.

Total Annual Cost: 2,705,000.

Needs and Uses: The purpose of 47 CFR part 68 is to protect the network from certain types of harm and interference to other subscribers. To ensure that consumers, providers of telecommunications, the Administrative Council, Telecommunications Certification Bodies (TCBs), and the Commission are able to trace products to the party responsible for placing terminal equipment on the market, it is essential to require manufacturers and suppliers to provide the information required by part 68.

OMB Control Number: 3060-1046.

Title: Implementation of the Pay Telephone Reclassification and Compensation Provisions of the

Telecommunications Act of 1996, CC Docket No. 96-128, Order on Reconsideration.

Frequency of Response: Annual and quarterly reporting requirements, recordkeeping requirement and third party disclosure requirement.

Total Annual Burden: 485,400 hours.

Privacy Act Impact Assessment: Not applicable.

Needs and Uses: Last year, on October 3, 2003, the Commission issued a Report and Order (CC Docket 96-128/FCC 03-235) that required "Completing Carriers" to compensate Payphone Service Providers (PSPs) for each and every completed call using a coinless access number. The Report and Order defined Completing Carriers as the last facilities-based long distance carrier in a call path either an interexchange carrier or a switched-based reseller. On October 22, 2004, the Commission released this Order on Reconsideration (FCC 04-251), which does not change this compensation framework, but rather refines and builds upon its approach. The Commission provides guidance on the types of contracts that the Commission would deem to be reasonable methods of compensating PSPs, extends the time period that carriers much retain certain payphone records, and clarifies the rules' reporting, certification, and audit requirements.

Federal Communications Commission.

Secretary.
