SUPPLEMENTARY INFORMATION:

A. Purpose

This information collection is
necessary to: (a) Determine the
responsibility of prospective
contractors; and (b) ensure that
contractors maintain for accuracy and
completeness, their integrity and
performance information upon which
responsibility determinations rely.

Section 872 of the Duncan Hunter
National Defense Authorization Act of
2009 (Public Law 110-417), enacted on
October 14, 2008, required the
development and maintenance of an
information system that contains
specific information on the integrity and
performance of covered Federal agency
contractors and grantees. The Federal
Award Performance and Integrity
Information System (FAPIS) was
developed to address these
requirements. FAPIS provides users
access to integrity and performance
information from the FAPIS reporting
module in the Contractor Performance
Assessment Reporting System (CPARS),
as well as proceedings information and
suspension/disbarment information
from the Central Contractor Registration
(CCR) and the Excluded Parties List
System (EPLS) functions in the System
for Award Management (SAM).

The provision at FAR 52.209-7
requires that for each solicitation where
the resultant contract value is expected
to exceed \$500,000, the offeror responds
in paragraph (b) as to whether it has, or
has not, active Federal contracts and
grants that total greater than
\$10,000,000. Only if the offeror
responds affirmatively is there any
further FAPIS-related information
collection requirement.

Because the total dollar amount of its
current Federal contracts and grants can
be quickly retrieved by any firm, the
estimated number of hours for response
to the check block in paragraph (b) of
the provision at 52.209-7 is 0.1 hours.

Data System (FPDS), in Fiscal Year
