#### SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0233.

Title: Part 36—Separations.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions.

Number of Respondents: 2,067 respondents; 5,433 responses.

Estimated Time Per Response: 5-22 hours.

Frequency of Response: On occasion, quarterly, and annual reporting requirements, third party disclosure requirements.

Total Annual Burden: 57,459 hours.

Total Annual Cost: N/A.

Needs and Uses: In order to allow determination of the study areas that are entitled to an expense adjustment, and the wire centers that are entitled to high-cost universal service support, each incumbent local exchange carrier must provide certain data to the National Exchange Carrier Association (NECA) annually and/or quarterly. Local telephone companies who want to participate in the federal universal service support program must make certain informational showings to demonstrate eligibility. With this submission, this information collection has been revised to eliminate 47 CFR Sections 36.701 through 36.741 which are no longer in effect. This modification was proposed in a *Notice of Proposed Rulemaking* in WC Docket No. 03-109, FCC 03-120. Additionally, the *Fourteenth Report and Order* in CC Docket No. 96-45, FCC 01-157, modified the requirement that only non-rural carriers are only required to file loop counts on a quarterly basis, this eliminating quarterly filing of loop cost data. This requirement was modified because it is no longer necessary for NECA to compute the national average cost per loop quarterly. The national average cost per loop is now frozen at \$240 per loop.

OMB Control No.: 3060-0817.

Title: Computer III Further Remand Proceedings: BOC Provision of Enhanced Services (ONA Requirements), CC Docket No. 95-20.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 5 respondents; 10 responses.

Estimated Time Per Response: 2-50 hours.

Frequency of Response: On occasion and semi-annual reporting requirements and third party disclosure requirement.

Total Annual Burden: 270 hours.

Total Annual Cost: N/A.

Needs and Uses: The Commission is seeking extension (no change) in this information collection. Bell Operating Companies (BOCs) are required to post their Comparably Efficient Interconnection (CEI) plans and amendments on their publicly accessible Internet sites. The requirement extends to CEI plans for new or modified telemessaging or alarm monitoring services and for new or amended payphone services. If the BOC receives a good faith request for a plan from someone who does not have Internet access, the BOC must notify that person where a paper copy of the plan is available for public inspection. The CEI plans will be used to ensure that BOCs comply with Commission policies and regulations safeguarding against potential anticompetitive behavior by the BOCs in the provision of information services.

OMB Control No.: 3060-0726.

Title: Quarterly Report of Interexchange Carriers Listing the Number of Dial-Around Calls for Which Compensation is Being Paid to Payphone Owners.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 261 respondents; 1,044 responses.

Estimated Time Per Response: 2 hours.

Frequency of Response: Quarterly reporting requirements and third party disclosure requirement.

Total Annual Burden: 522 hours.

Total Annual Cost: N/A.

Needs and Uses: The Commission is seeking extension (no change) in this information collection. Interexchange carriers responsible for paying per-call compensation to payphone providers must submit on a quarterly basis a list of dial-around calls to those payphone providers. The payphone providers need the list to calculate the compensation to be paid by the interexchange carriers.
