

Pursuant to § 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's EA.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list and will be notified of any meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's website (<http://www.ferc.gov>) under the "e-Filing" link.

Abstract: EPA's Pollution Prevention (P2) Program is a voluntary program that encourages businesses/facilities to adopt P2 projects that reduces both financial costs (waste management and cleanup) and environmental costs (health problems and environmental damage). In passing the Pollution Prevention Act

(PPA) in 1990, Congress found that there are significant opportunities for industry to reduce or prevent pollution at the source through cost-effective changes in production, operation, and raw materials use. Such changes offer industry substantial savings in reduced raw material, pollution control, and liability costs as well as help protect the environment and reduce risks to worker health and safety. 42 U.S.C. 13101(a)(2). Furthermore, the PPA states the Administrator shall "establish an annual award program to recognize a company or companies which operate outstanding or innovative source reduction programs" (PPA section 6604) 42 U.S.C. 13103(b)(13). The EPA P2 Awards Program is an annual, voluntary, and non-monetary awards program that will recognize companies that demonstrate leadership in innovative P2 practices and encourage other entities to consider P2 approaches. This ICR may be applicable to HQ, as well as any of the 10 Regional Offices that choose to participate and implement a P2 Awards Program.

Form numbers: EPA P2 Award Program Application—5800-005.

Respondents/affected entities: Intended Respondents include various types of businesses from all North American Industry Classification System (NAICS) codes. However, businesses need to be from a state in an EPA Region implementing this awards program.

Respondent's obligation to respond: Respondents are not obligated to respond. This is done on a voluntary basis.

Estimated number of respondents: Approximately 5-10 per region (total).

Frequency of response: Annually on a voluntary basis.

Total estimated burden: 19.5 hours per respondent (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$1,804.83 per respondent (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in estimates: Not applicable at this time.

Dated: May 29, 2020.

Gregory Sopkin,

Regional Administrator, EPA Region 8.
