**SUPPLEMENTARY INFORMATION:****I. Background**

Treasury, in consultation with other members of the Inter-Agency Working Group on Treasury Market Surveillance (IAWG),<sup>1</sup> is exploring the possibility of additional post-trade transparency of data for secondary market cash transactions of Treasury securities (which we refer to as the "Treasury securities market" in this request for information).<sup>2</sup> Providing additional insight into these transactions may enhance liquidity by fostering a greater understanding of market activity across market segments and supporting the smooth functioning of the Treasury securities market. Additional transparency may also promote greater competition in the Treasury securities

<sup>1</sup> The IAWG members are Treasury, the Board of Governors of the Federal Reserve System (Federal Reserve Board), the Federal Reserve Bank of New York (FRBNY), the Securities and Exchange Commission (SEC), and the Commodity Futures Trading Commission (CFTC).

<sup>2</sup> In addition, at the November 2021 U.S. Treasury Market Conference, Treasury Under Secretary for Domestic Finance Nellie Liang highlighted past improvements in data quality and transparency and noted Treasury "will consider ways to improve transparency about transactions, such as providing data at a higher frequency, building on lessons learned from the recent expanded reporting of weekly volumes and recognizing investors' needs to be able to transact quickly in large quantities." Remarks by Under Secretary for Domestic Finance Nellie Liang at the 2021 Treasury Market Conference" (Nov. 17, 2021), available at <https://home.treasury.gov/news/press-releases/jy0491>.
