DEPARTMENT OF THE INTERIOR

Office of the Secretary; Revised Departmental Strategic Plan for FY 2003–2008

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of availability.

SUMMARY: On September 30, 2003, the Department of the Interior released its revised Departmental Strategic Plan for FY 2003–2008. While the document remains available to the public through the Departmental Internet Web site, <http://www.doi.gov>, a limited number of printed copies of the Strategic Plan are now available upon request.

ADDRESSES: Written requests can be submit by: E-mail:

strategic_plan@ios.doi.gov:

Fax: (202) 208–2619.

Mail: U.S. Department of the Interior, Office of the Secretary—Planning and Performance Management, 1849 C Street NW., Mail Stop 5258, Washington, DC 20240. Attention: GPRA Project Manager.

FOR FURTHER INFORMATION CONTACT: LeRon E. Bielak at (202) 208–1818.

SUPPLEMENTARY INFORMATION: The DOI has significantly departed from its past approaches to strategic planning. The DOI plan stands as the Government Performance and Results Act document for the entire agency. Commonality of mission function and desired results is given much greater weight than in previous plans. This overall approach is aimed at greater integration of purpose and function across the Department and at achieving improved performance and results.

Dated: March 2, 2004.

FOR FURTHER INFORMATION CONTACT:

Sharron L. Gebhardt, telephone (303) 231–3211, FAX (303) 231–3781.

SUPPLEMENTARY INFORMATION: *Title:* 30 CFR Part 206—Product Valuation, Subpart J—Indian Coal (Forms MMS–4292, Coal Washing Allowance Report, and MMS–4293, Coal Transportation Allowance Report).

OMB Control Number: 1010–0074.

Bureau Form Number: Forms MMS–4292 and MMS–4293.

Abstract: The Secretary of the U.S. Department of the Interior (DOI) is responsible for collecting royalties from lessees who produce minerals from leased Federal and Indian lands. The Secretary is required by various laws and acts including 25 U.S.C. 396d and the Indian Minerals Development Act (25 U.S.C. 2103) to manage mineral resources production on Federal and Indian lands, collect the royalties due, and distribute the funds in accordance with those laws.

The Secretary also has an Indian trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. MMS performs the royalty management functions and assists the Secretary in carrying out DOI’s Indian trust responsibility.

Indian tribes and allottees receive all royalties generated from Indian lands. Both groups have expressed concern that DOI will ensure they receive the proper royalty amount. Failure to collect the data described in this information collection could result in the undervaluation of the minerals and render it impossible for the Secretary to

fulfill his/her statutory and trust responsibilities to the Indians. The information that is collected under this ICR is essential for the royalty valuation process.

We developed Form MMS-4292, Coal Washing Allowance Report, and Form MMS-4293, Coal Transportation Allowance Report, for industry to use when reporting or requesting a washing or transportation allowance. Historically, the lessee requested approval of royalty deductions by submitting a letter which provided information enabling the Government to evaluate the reasonableness of the deductions. Under the product value regulations at 30 CFR Part 206—Product Valuation, Subpart J—Indian Coal, we normally accept costs incurred under arm's-length contracts for transporting and/or washing coal. (An arm's-length contract is a contract or agreement between independent, nonaffiliated

persons with opposing economic interest regarding that contract.) The regulations further provide that we normally accept the contract sales prices arrived at by the lessee in their arm's-length contract as being representative of value for ad valorem leases (30 CFR 206.456, Valuation standards for ad valorem leases).

In those instances when Indian coal is washed or transported under non-arm's-length conditions, it is necessary for us to obtain cost data. The information collected on the forms enables us to accurately determine if the lessee correctly computed the coal value and the gross proceeds for royalty calculation purposes.

Proprietary information that is submitted to MMS is protected, and there are no questions of a sensitive nature included in this information collection. The requirement to respond

is required when claiming washing and/or transportation allowances.

For this ICR renewal, we have no change in the burden hours submitted to OMB. We have changed the title of this ICR from "Coal Washing and Transportation Allowance (Forms MMS-4292 and MMS-4293)" to "30 CFR Part 206—Product Valuation, Subpart J—Indian Coal (Forms MMS-4292, Coal Washing Allowance Report, and MMS-4293, Coal Transportation Allowance Report)," to clarify the regulatory language we are covering under 30 CFR Part 206.

Frequency of Response: Annually.

Estimated Number and Description of Respondents: 1 lessee.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 4 hours.

The following chart shows the breakdown of the estimated burden hours by CFR section and paragraph:

Estimated Annual Reporting and Recordkeeping "Non-hour Cost"

Burden: We have identified no "non-hour" cost burdens.

Comments: The PRA (44 U.S.C. 3501, *et seq.*) provides an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. Before submitting an ICR to OMB, PRA Section 3506(c)(2)(A) requires each agency " * * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *." Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting "non-hour cost" burden to respondents or recordkeepers resulting from the collection of information. We have not identified non-hour cost burdens for this information collection. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should

describe the methods you use to estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request.

Public Comment Policy: We will make copies of the comments available for public review, including names and addresses of respondents, during regular business hours at our offices in Lakewood, Colorado. Upon request, we will withhold an individual respondent's home address from the public record, as allowable by law. There also may be circumstances in which we would withhold from the rulemaking record a respondent's identity, as allowable by law. If you request that we withhold your name and/or address, state your request prominently at the beginning of your

comment. However, we will not consider anonymous comments. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.
