

and San Luis Obispo County Air Pollution Control District (SLOAPCD). The EPA implements and enforces the regulations for all other sources under its authority.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 112 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Entities potentially affected by this action are all outer continental shelf sources except those located in the Gulf of Mexico west of 87.5 degrees longitude (near the border of Florida and Alabama). For sources located within 25 miles of States' seaward boundaries, the requirements are the same as those that would be applicable if the source were located in the corresponding onshore area. In States affected by this rule, State boundaries extend three miles from the coastline, except off the coast of the Florida Panhandle, where the State's boundary extends three leagues (about nine miles) from the coastline.

Estimated Number of Respondents: 65.

Frequency of Response: On occasion.
Estimated Total Annual Hour Burden: 30,797.

Estimated Total Annual Cost: \$42,756, which includes \$9,506 annualized capital/startup costs and \$33,250 annual O&M costs.

Changes in the Estimates: There is a decrease of 3,227 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to the projected changes in the mix and type of sources projected to occur in the upcoming clearance period. Most notably, there is a significant increase in the number of exploratory wells under EPA authority and the addition of eight alternative energy projects. In contrast, the number of existing development/

production wells under EPA jurisdiction has been changed from 15 to 0 in the upcoming period. However, we project that costs will increase because the estimates have been calculated using 2007 dollars and some assumptions regarding overhead, O&M costs, and capital costs have been adjusted to meet current guidelines and common procedures for preparing ICRs.

Dated: October 31, 2008.

Deborah Williams,

Acting Director, Collection Strategies Division.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Bulk Gasoline Terminals (Renewal), EPA ICR Number 0664.09, OMB Control Number 2060-0006

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before December 8, 2008.

ADDRESSES: Submit your comments, referencing docket ID number EPA-OECA-2008-0279, to (1) EPA online using www.regulations.gov (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2201T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Learia Williams, Compliance

Assessment and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; e-mail address: williams.learia@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 30, 2008 (73 FR 31088), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2008-0279, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1927.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NSPS for Bulk Gasoline Terminals (Renewal).

ICR Numbers: EPA ICR Number 0664.09, OMB Control Number 2060-0006.

ICR Status: This ICR is schedule to expire on January 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is

pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The New Source Performance Standards (NSPS) for Bulk Gasoline Terminals were proposed on December 17, 1980, promulgated on August 18, 1983, and amended on December 22, 1983. These standards apply to the total of all loading racks at bulk gasoline terminals that deliver liquid product into gasoline tank trucks and for which construction, modification or reconstruction commenced after the date of proposal. A bulk gasoline terminal is any gasoline facility that receives gasoline by pipeline, ship or barge, and has a gasoline throughput greater than 75,700 liters per day. The affected facility includes the loading arms, pumps, meters, shutoff valves, relief valves, and other piping and valves necessary to fill delivery tank trucks. Volatile organic chemicals (VOCs) are the pollutants regulated under this subpart.

Owners or operators of the affected facilities, must make the following one-time-only reports: Notification of the date of construction or reconstruction; notification of the anticipated and actual dates of startup; notification of any physical or operational change to an existing facility that may increase the regulated pollutant emission rate; notification of the date of the initial performance test, and the results of the initial performance test. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. These notifications, reports and records are required, in general, of all sources subject to NSPS.

Monitoring requirements specific to bulk gasoline terminals are listed in 40 CFR 60.505. These requirements consist of identifying and documenting vapor tightness for each gasoline tank truck that is loaded at the affected facility, and notifying the owner or operator of each tank truck that is not vapor-tight. The owner or operator must also

perform a monthly visual inspection for liquid or vapor leaks, and maintain records of these inspections at the facility.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 60, subpart XX, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Number for EPA's regulations listed in 40 CFR part 9 and 48 CFR chapter 15, are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information estimated to average 329 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose and provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information. All existing ways will have to adjust to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Bulk gasoline terminals.

Estimated Number of Respondents: 40.

Frequency of Response: Initially and occasionally.

Estimated Total Annual Hour Burden: 13,165.

Estimated Total Annual Cost: \$1,062,809 in Labor costs. There are no annualized capital/startup or annual Operations & Maintenance (O&M) costs associated with this ICR.

Changes in the Estimates: There is no change in the labor cost in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and not anticipated to

change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent, so there is no significant change in the overall burden. However, there is a change in the total labor hours of 3 hours less than was in the previous ICR; this was due to a calculation error. This ICR corrects the error.

Since there are no changes in the regulatory requirements and there is no significant industry growth, the labor hours and cost figures in the previous ICR was used in this ICR, and there is no change in burden to industry.

Dated: October 31, 2008.
