Comment Date: 5 p.m. Eastern Time on Tuesday, February 17, 2009.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern Time on the specified comment date. It is not necessary to separately intervene

again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

[Project No. 2082–027]

PacifiCorp; Notice of Designation of Certain Commission Staff as Non-Decisional

February 4, 2009.

Commission staff member James Hastreiter (Office of Energy Projects (503) 552–2760; james.hastreiter@ferc.gov) is designated as “non-decisional” staff and is assigned to help resolve environmental and other issues associated with development of a settlement agreement for the Klamath Hydroelectric Project, and to help ensure compatibility of any offer of settlement or settlement agreement with Commission procedure and licensing process.

As “non-decisional” staff, Mr. Hastreiter will not participate in an advisory capacity in the Commission's review of any offer of settlement or settlement agreement, or deliberations concerning the disposition of the relicense application.

Different Commission “advisory staff” will be assigned to review any offer of settlement or settlement agreement, and to process the relicense application, including providing advice to the Commission with respect to the agreement and the application. Non-decisional staff and advisory staff are prohibited from communicating with one another concerning the settlement and the relicense application.

Kimberly D. Bose,

Secretary.

[Docket No. CP07–398–002]

Gulf Crossing Pipeline Company LLC; Notice of Intent To Prepare An Environmental Assessment for the Proposed Mira Compressor Station Amendment and Request for Comments on Environmental Issues

February 4, 2009.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Mira Compressor Station

Amendment (Mira Amendment) involving construction and operation of facilities by Gulf Crossing Pipeline Company LLC (Gulf Crossing) in Caddo Parish, Louisiana.¹ This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process we will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine which issues need to be evaluated in the EA. Please note that the scoping period will close on March 6, 2009.

This notice is being sent to affected landowners; federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern.

A fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?" is available for viewing on the FERC Web site (www.ferc.gov). This fact sheet addresses a number of typically asked questions, and how to participate in the Commission's proceedings. It is available for viewing on the FERC Internet Web site (www.ferc.gov).

Summary of the Proposed Project

Gulf Crossing proposes to upgrade the two previously certificated turbine-compressor units at the Mira Compressor Station to larger turbine compressor units to increase the total horsepower of the Mira Compressor Station by 14,896. Gulf Crossing would install a new Solar Mars 100–15000S/C452 natural gas-fired turbine and a Solar Titan 130–20502S/C653 natural gas-fired turbine in place of the previous units for a total Station horsepower of 35,500. In addition, minor upgrades to the station's auxiliary facilities would be required.

The general location of the project facilities is shown in Appendix 1.²

If approved, Gulf Crossing proposes to commence construction of the proposed facilities in July 2009.

Land Requirements for Construction

All construction activities associated with the modifications to the Mira Compressor Station would be located within the previously certificated facility footprint. A total of 20 acres would be utilized during construction, and 10 acres would be retained within the fenced area of the compressor station.

The EA Process

The National Environmental Policy Act (NEPA) requires the Commission to take into account the environmental impacts that could result from an action whenever it considers the issuance of a Certificate of Public Convenience and Necessity. NEPA also requires us to discover and address concerns the public may have about proposals. This process is referred to as "scoping." The main goal of the scoping process is to focus the analysis in the EA on the important environmental issues. By this Notice of Intent, the Commission staff requests public comments on the scope of the issues to address in the EA. All comments received are considered during the preparation of the EA. State and local government representatives are encouraged to notify their constituents of this proposed action and encourage them to comment on their areas of concern.

In the EA we³ will discuss impacts that could occur as a result of the construction and operation of the proposed project under these general headings:

- Geology and soils;
- Land use;
- Water resources, fisheries, and wetlands;
- Cultural resources;
- Vegetation and wildlife;
- Air quality and noise;
- Endangered and threatened species;
- Public safety.

We will also evaluate possible alternatives to the proposed project or portions of the project, and make recommendations on how to lessen or avoid impacts on the various resource areas.

Our independent analysis of the issues will be in the EA. Depending on

the comments received during the scoping process, the EA may be published and mailed to federal, state, and local agencies, public interest groups, interested individuals, affected landowners, newspapers, libraries, and the Commission's official service list for this proceeding. A comment period will be allotted for review if the EA is published. We will consider all comments on the EA before we make our recommendations to the Commission. To ensure your comments are considered, please carefully follow the instructions in the public participation section below.

With this NOI, we are asking federal, state, and local agencies with jurisdiction and/or special expertise with respect to environmental issues to formally cooperate with us in the preparation of the EA. These agencies may choose to participate once they have evaluated the proposal relative to their responsibilities. Additional agencies that would like to request cooperating agency status should follow the instructions for filing comments provided under the Public Participation section of this NOI.

Currently Identified Environmental Issues

We have identified potential impacts to air quality and a potential increase in noise impacts as two issues that we think deserve attention based on a preliminary review of the proposed facilities and the environmental information provided by Gulf Crossing. This preliminary list of issues may be changed based on your comments and our analysis.

Public Participation

You can make a difference by providing us with your specific comments or concerns about the Mira Amendment. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that your comments are timely and properly recorded, please send in your comments so that they will be received in Washington, DC on or before March 6, 2009.

For your convenience, there are three methods in which you can use to submit your comments to the Commission. In all instances please reference the project docket number CP07–398–002 with your submission. The Commission encourages electronic filing of comments and has dedicated eFiling

¹ On December 5, 2008, Gulf South filed its application with the Commission under section 7 of the Natural Gas Act and Part 157 of the Commission's regulations. The Commission issued its Notice of Application on December 16, 2008.

² The appendices referenced in this notice are not being printed in the **Federal Register**. Copies of all appendices, other than Appendix 1 (maps), are available on the Commission's Web site at the

"eLibrary" link or from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426, or call (202) 502–8371. For instructions on connecting to eLibrary, refer to the last page of this notice. Copies of the appendices were sent to all those receiving this notice in the mail.

³ "We", "us", and "our" refer to the environmental staff of the Office of Energy Projects (OEP).

expert staff available to assist you at 202–502–8258 or efiling@ferc.gov.

(1) You may file your comments electronically by using the Quick Comment feature, which is located on the Commission’s internet Web site at <http://www.ferc.gov> under the link to *Documents and Filings*. A Quick Comment is an easy method for interested persons to submit text-only comments on a project;

(2) You may file your comments electronically by using the *eFiling* feature, which is located on the Commission’s internet Web site at <http://www.ferc.gov> under the link to *Documents and Filings*. *eFiling* involves preparing your submission in the same manner as you would if filing on paper, and then saving the file on your computer’s hard drive. You will attach that file as your submission. New *eFiling* users must first create an account by clicking on “*Sign up*” or “*eRegister*.” You will be asked to select the type of filing you are making. A comment on a particular project is considered a “Comment on a Filing;” or

(3) You may file your comments via mail to the Commission by sending an original and two copies of your letter to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First St., NE., Room 1A, Washington, DC 20426.

Label one copy of the comments for the attention of Gas Branch 3, PJ11.3.

Environmental Mailing List

An effort is being made to send this notice to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project. This includes all landowners who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within distances defined in the Commission’s regulations of certain aboveground facilities.

If you do not want to send comments at this time but still want to remain on our mailing list, please return the Information Request (Appendix 2). If you do not return the Information Request, you will be taken off the mailing list.

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an “intervenor,” which is an official party to the proceeding. Intervenor play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission’s final ruling. An intervenor formally participates in a Commission proceeding by filing a request to intervene. Instructions for becoming an intervenor are included in the User’s Guide under the “e-filing” link on the Commission’s Web site.

Additional Information

Additional information about the project is available from the Commission’s Office of External Affairs, at 1–866–208–FERC or on the FERC Internet Web site (www.ferc.gov) using the *eLibrary* link. Click on the *eLibrary* link, click on “General Search” and enter the docket number excluding the last three digits in the Docket Number field. Be sure you have selected an appropriate date range. For assistance, please contact FERC Online Support at FercOnlineSupport@ferc.gov or toll free at 1–866–208–3676, or for TTY, contact (202) 502–8659. The *eLibrary* link also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission now offers a free service called *eSubscription* which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries and direct links to the documents. Go to www.ferc.gov/esubscribenow.htm.

Finally, public meetings or site visits will be posted on the Commission’s calendar located at <http://www.ferc.gov/>

[EventCalendar/EventsList.aspx](#) along with other related information.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. PF09–1–000]

Tennessee Gas Pipeline Company; Notice of Intent To Prepare an Environmental Assessment for the 300 Line Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meetings

February 4, 2009.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts that could result from the construction and operation of the 300 Line Project. The project is planned by Tennessee Gas Pipeline Company (TGP) to expand the natural gas transportation capacity of its existing 300 Line pipeline in Pennsylvania and New Jersey.

This Notice of Intent (NOI) announces the opening of the scoping process used to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine which issues need to be evaluated in the EA. The staff will also use the scoping process to determine whether preparation of an environmental impact statement is more appropriate for this project based on the anticipated level of impacts. Please note that the scoping period will close on March 6, 2009.

Comments may be submitted in written or verbal form. Further details on how to submit written comments are provided in the Public Participation section of this notice. In lieu of or in addition to sending written comments, we invite you to attend the public scoping meetings scheduled as follows.

Date and time	Location
Tuesday, February 24, 2009, 7 p.m. (EST)	Walnut Ridge Primary School, 625 County Route 517, Vernon, New Jersey.
Wednesday, February 25, 2009, 7 p.m. (EST)	Montrose High School, 50 High School Road, Montrose, Pennsylvania.
Thursday, February 26, 2009, 7 p.m. (EST)	Mansfield University, Room G3, Allen Hall, 135 Stadium Drive, Mansfield, Pennsylvania.

Interested groups and individuals are encouraged to attend the meetings and to present comments on the

environmental issues they believe should be addressed in the EA. A transcript of the meetings will be

generated so that your comments will be accurately recorded.
This notice is being sent to affected landowners; federal, state, and local
