

Needs and Uses: The National Oceanic and Atmospheric Administration (NOAA) collects information to implement the International Dolphin Conservation Program Act (Act). The Act allows entry of yellowfin tuna into the United States (U.S.), under specific conditions, from nations in the International Dolphin Conservation Program that would otherwise be under embargo. The Act also allows U.S. fishing vessels to participate in the yellowfin tuna fishery in the eastern tropical Pacific Ocean (ETP) on terms equivalent with the vessels of other nations. NOAA collects information to allow tracking and verification of "dolphin safe" and "non-dolphin safe" tuna products from catch through the U.S. market.

The regulations implementing the Act are at 50 CFR parts 216 and 300. The recordkeeping and reporting requirements at 50 CFR parts 216 and 300 form the basis for this collection of information. This collection includes permit applications, notifications, tuna tracking forms, reports, and certifications that provide information on vessel characteristics and operations in the ETP, the origin of tuna and tuna products, and certain other information necessary to implement the Act.

Affected Public: Business or other for-profit organizations.

Frequency: Annually and on occasion.

Respondent's Obligation: Mandatory.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and

Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: NWHI Mokupapapa Discovery Center Exhibit Evaluation.

OMB Control Number: 0648-0582.

Form Number(s): NA.

Type of Request: Regular submission (revision and extension of a current information collection).

Number of Respondents: 250.

Average Hours per Response: 7 minutes, 30 seconds.

Burden Hours: 31.

Needs and Uses: This request is for a revision and extension of a currently approved information collection. Mokupapapa Discovery Center (Center) is an outreach arm of Papahānaumokuākea Marine National Monument that reaches 60,000 people each year in Hilo, Hawai'i. The Center was created eight years ago to help raise support for the creation of a National Marine Sanctuary in the Northwestern Hawaiian Islands. Since that time, the area has been proclaimed a Marine National Monument and the main messages NOAA is trying to share with the public have changed to better reflect the new monument status, UNESCO World Heritage status and the joint management by the three co-trustees of the Monument. NOAA therefore is seeking to find out if people visiting our Center are receiving our new messages by conducting an optional exit survey. The exit survey is the basis for the information collection revision.

Affected Public: Individuals or households.

Frequency: One time.

Respondent's Obligation: Voluntary.

OMB Desk Officer:

SUPPLEMENTARY INFORMATION:

I. Abstract

The Special Census Program is a reimbursable service offered and performed by the Census Bureau for the government of any state, county, city, or other political subdivision within a state. This includes the District of Columbia, the government of any possession or area over which the U.S. exercises jurisdiction, control, or sovereignty, and other governmental units that require current population data between decennial censuses.

Many states use Special Census population statistics to determine the distribution of funds to local jurisdictions. The local jurisdictions
