BILLING CODE 4140-01-M

DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Pursuant to the Federal Insecticide, Fungicide, and Rodenticide Act and the Comprehensive Environmental Response, Compensation, and Liability Act

In accordance with 28 CFR 50.7 and 42 U.S.C. 9622(i), notice is hereby given that on August 21, 2001, a Consent Decree was lodged with the United States District Court for the District of Puerto Rico in *United States v. Tropical Fruit, S.E., et al.*, Civil Action No. 97-1442-DRD. In the complaint the United States, on behalf of the U.S. Environmental Protection Agency ("EPA"), alleged that the Defendants violated the Federal Insecticide, Fungicide, and Rodenticide Act ("FIFRA"), 7 U.S.C. 136 *et seq.*, and the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA"), 42 U.S.C. 9601, *et seq.*, at a Farm located in Rural Zone Boca, Guayanilla, Puerto Rico. The United States' complaint alleged, *inter alia*, that Defendants applied pesticides to agricultural crops, including mangos and bananas, located on the Farm in such a manner that the pesticides drifted or otherwise migrated beyond the boundaries of Defendants' Farm in contravention of the pesticide label requirements.

The Consent Decree requires Defendants to pay \$35,000 in penalties and CERCLA response costs and to comply with extensive injunctive relief measures, including the creation of a buffer zone on the northern and a portion of the western perimeter of the

Farm which will vary in width up to 173 feet. In the areas of the Farm adjacent to residences which are in mango production, Tropical Fruit will remove, and at its option, relocate, mango trees in a 173 foot buffer zone area, plant plantains, and will also ultimately completely cease spraying pesticides in this 173 foot buffer zone. In the areas of the Farm that are not adjacent to residences and which are in mango production, Tropical Fruit will ultimately completely cease spraying pesticides in a 50–75 foot buffer zone area closest to the border of the Farm and will apply pesticides only through hand spraying equipment in the remaining approximately 100–123 feet of this buffer zone. In the areas of the Farm which are in banana production, the Farm will create a 50–125 buffer zone in which it will ultimately completely cease spraying pesticides. Tropical Fruit has also agreed, among other things, to (i) plant a vegetative barrier comprised of neem trees (in some places two rows of neem trees and in other areas, one row) along nearly the entire perimeter of the buffer zone; (ii) observe wind speed restrictions when spraying pesticides; (iii) purchase and use an improved anemometer (to measure wind speed) that will allow for instant communication between the anemometer and the tractor spraying the pesticides; (iv) employ an individual to monitor pesticide hand-spraying operations for three years; and (v) utilize drift retardants when applying pesticides.

The Department of Justice will receive comments relating to the proposed Consent Decree for a period of thirty (30) days from the date of this publication. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, Department of Justice, P.O. Box 7611, Washington, DC 20044, and should refer to *United States v. Tropical Fruit, S.E., et al.*, D.J. Ref. 1–1700z.

The proposed consent decree may be examined at the office of the United States Attorney, Federal Building Room 452, Carlos Chardon Avenue, Hato Rey, PR 00918, and at two offices of the Environmental Protection Agency, Region II: EPA, 290 Broadway, 17th floor, New York, NY 10007–1866 or EPA, Caribbean Environmental Protection Division, Centro Europa Building, Suite 417, 1492 Ponce De Leon, Stop 22, Santurce, Puerto Rico, 09907–4127. A copy of the proposed Consent Decree may also be obtained by mail from the Department of Justice Consent Decree Library, P.O. Box 7611, Washington, DC 20044. In requesting a

copy, please enclose a check (there is a 25 cent per page reproduction cost) in the amount of \$11.75 payable to the “Consent Decree Library.”

Deputy Chief, Environmental Enforcement Section, Environment & Natural Resources Division.

DEPARTMENT OF LABOR

Employment and Training Administration

ETA–9000 Report on Internal Fraud Activities: Comment Request

ACTION: Notice; request for comments.

SUMMARY: The Department of Labor, as a part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with a provision of the Paperwork Reduction Act of 1995 at 44 U.S.C. 3506 (c)(2)(A). This program helps to ensure that requested data can be provided in the desired format. Reporting burdens (time and financial resources) are minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments concerning the proposed extension for collection information for the ETA–9000 Report on Internal Fraud Activities. A copy of the proposed information collection request can be obtained by contacting the office listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section below October 26, 2001.

ADDRESSES: Harry B. Minor, Office of Workforce Security, Employment and Training Administration, U.S. Department of Labor, Room S4516, 200 Constitution Avenue, NW., Washington, DC 20210, telephone number, (202) 693–3216 (this is not a toll-free number).

SUPPLEMENTARY INFORMATION:

I. Background

The ETA–9000 is the only data source available on instances of internal fraud activities within the Unemployment

Insurance (UI) program and on the results of safeguards that have been implemented to deter and detect instances of internal fraud. The report categorizes the major areas susceptible to internal (employee) fraud and provides actual and “estimated” (predictability or cost avoidance measures) workload. The information from this report has been used and will be used to review Internal Security (IS) operations and obtain information on composite shifting patterns of nationwide activity, and effectiveness in the area of internal fraud identification and prevention. The Employment and Training Administration has used this report to assess the overall adequacy of IS procedures in State Employment Security Agency (SESA) UI program administration.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

III. Current Actions

Continued collection of the ETA–9000 data will provide for a comprehensive evaluation of the UI IS program. The data is collected annually, and an analysis of the data received is formulated into a report summarizing the internal fraud cases uncovered by the 53 SESAs.
