The Board is composed of eight members, all of whom have national or regional leadership experience in the fields of fire safety, fire prevention (such as community risk reduction to include wildland urban interface), fire control, research and development in fire protection, treatment and rehabilitation of fire victims, or local government services management, which includes emergency medical services. The Board is an advisory committee established in accordance with the provision of the Federal Advisory Committee Act (FACA), 5 U.S.C. ch.10. The purpose of the Board is to review annually the programs of the Academy and advise the FEMA Administrator on the operation of the Academy and any improvements therein that the Board deems appropriate. In carrying out its responsibilities, the Board examines Academy programs to determine whether these programs further the basic missions approved by the FEMA Administrator, examines the physical plant of the Academy to determine the

adequacy of the Academy's facilities, and examines funding levels for Academy programs. The Board submits a written report through the United States Fire Administrator to the FEMA Administrator annually. The report provides detailed comments and recommendations regarding the Academy's operations.

Board members may be reimbursed for travel and per diem incurred in the performance of their duties as members of the Board. All travel for Board business must be approved in advance by the Designated Federal Officer. To the extent practical, Board members shall serve on any subcommittee that is established.
