

representatives started in January of 2000 and has been ongoing. The Forest has conducted three field trips to the project area for the public and local Native American tribal representatives.

All comments received from the earlier scoping period will be considered in the EIS, unless respondent submits new comments indicating changes to prior submissions.

The draft EIS is expected to be filed with the Environmental Protection Agency and available for public review by May 2002. The comment period on the draft EIS will be 45 days from the date the Environmental Protection Agency publishes the notice of availability in the **Federal Register**.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft environmental impact statements must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions (*Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519 553 (1978)). Also, environmental objection that could be raised at the draft environmental impact statement stage but that are not raised until after completion of the final environmental impact statement stage may be waived or dismissed by the courts (*City of Angoon v. Hodel*, 803 F. 2nd 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980)).

Because of the above rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that substantive comments are made available to the Forest Service at a time when they can be meaningfully considered and responded to in the final environmental impact statement. Comments on the draft environmental impact statement should be as specific as possible. It is also helpful if comments refer to specific pages, sections, or chapters of the draft statement. Comments may also address the adequacy of the draft environmental impact statement or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points. After the comment period ends on the draft EIS, the comments received will be

analyzed and considered by the Forest Service in preparing the final EIS.

The final EIS is scheduled to be completed in September, 2002. In the final EIS, the Forest Service is required to respond to the comments received (40 CFR 1503.4). The responsible official will consider the comments, responses, environmental consequences discussed in the environmental impact statement, and applicable laws, regulations and policies in making a decision regarding this proposal. The responsible official will document the decision and reasons for the decision in a Record of Decision.

That decision will be subject to appeal under 36 CFR part 215.

The responsible official is Dan Chisholm, Forest Supervisor, Modoc National Forest, 800 W. 12th St., Alturas, CA 96101.

Dated: March 18, 2002.

Dan Chisholm,

Forest Supervisor.
