

Sunrise Valley Drive MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–NEW in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Jennifer Rapp by email at jrapp@usgs.gov or by telephone at 804–261–2635. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the PRA of 1995, we are providing the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: The United States is facing growing challenges related to the availability and quality of water due to

shifting demographics, aging water-delivery infrastructure, the impacts of climate change, and increasing hazards risk, such as floods and drought. Working with incomplete knowledge, managers must consider the needs of various demographic groups and economic sectors when making management decisions as well as when responding to emergencies. To improve delivery of effective science to support decision-making, the USGS must adapt to meet the evolving needs of stakeholders in the water-hazard space. We will collect information regarding the decision-making process, data, and data format needs to support daily, long-term, and emergency management decision-making. Information will also be sought on gaps in data delivery and coverage. A lack of decision-support data within water institutions can lead to poor decision-making and outcomes that produce conflict between water-use sectors, states, or communities and ultimately may lead to a crisis. This information will support the delivery of appropriate data, in appropriate formats, at the right time for decision-making and emergency management. The information will guide USGS support of water-resource institutions, enhancing resilience in the face of the many water-resource challenges the nation currently faces.

Title of Collection: Vulnerability to Water Insecurity, Hazards Planning, and Response.

OMB Control Number: 1028–NEW.

Form Number: None.

Type of Review: New.

Respondents/Affected Public: Federal, State, Tribal Nation, and local water-resource managers, water-resource stakeholders, and water-hazard responders.

Total Estimated Number of Annual Respondents: 750.

Total Estimated Number of Annual Responses: 750.

Estimated Completion Time per Response: 60 minutes.

Total Estimated Number of Annual Burden Hours: 750.

Respondent's Obligation: Voluntary.

Frequency of Collection: Once per year.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA of 1995 (44 U.S.C. 3501 *et seq.*).

Joseph Nielsen,

Director, Integrated Information Dissemination Division, USGS Water Resources Mission Area.

Notice of Availability of the Final Programmatic Environmental Impact Statement for the Navajo Nation Integrated Weed Management Plan; Arizona, New Mexico, and Utah

AGENCY: Bureau of Indian Affairs, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended, the Bureau of Indian Affairs (BIA) as the lead Federal agency, with the Navajo Nation as a cooperating agency, has prepared a Final Programmatic Environmental Impact Statement (FPEIS) for the proposed Navajo Nation Integrated Weed Management Plan (NNIWMP) and by this notice is announcing its availability.

DATES: The BIA will not issue a final decision on the proposal for a minimum of 30 days after the date that the Environmental Protection Agency publishes its Notice of Availability (NOA) in the **Federal Register**.

ADDRESSES: The FPEIS and associated documents are available for review online at <https://www.bia.gov/regional-offices/navajo/navajo-nation-integrated-weed-management-plan> and by request at the Bureau of Indian Affairs, Navajo Regional Office, 301 West Hill Street, Gallup, NM 87301.

FOR FURTHER INFORMATION CONTACT: Leonard Notah, NEPA Coordinator, Bureau of Indian Affairs, Navajo Regional Office, Branch of Environmental Quality Compliance and Review, P.O. Box 1060, Gallup, New Mexico 87301, leonard.notah@bia.gov, (505) 863–8256. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services.

SUPPLEMENTARY INFORMATION:

Background

The proposed action is the implementation of the NNIWMP. The BIA Navajo Regional Office prepared the NNIWMP to determine the most effective and appropriate methods to treat noxious and invasive weeds. The FPEIS discloses the direct, indirect, and cumulative environmental impacts of weed treatment techniques that would result from the proposed action and alternatives. The weed treatment techniques provide the BIA with the tools to implement an integrated approach to treating weeds on the Navajo Nation (Navajo Tribal Trust Lands and Navajo Indian Allotments).

Purpose

The purpose of the NNIWMP is to prevent, eradicate, contain, and/or monitor 45 noxious weed species on the Navajo Nation including Navajo Tribal Trust Lands and Navajo Indian Allotments. The NNIWMP focuses on managing non-native invasive plant species using mechanical, manual, cultural, biological, and chemical weed treatment methods. The following objectives were developed for the NNIWMP:

- Develop the best control techniques described for the target weed species in a planned, coordinated, and economically feasible program to limit the impact and spread of noxious and invasive weeds;
- Incorporate project successes and lessons learned from completed weed projects on the Navajo Nation when developing weed removal project proposals through adaptive management;
- Identify and prevent the expansion of existing infestations of target weed species, and quickly prevent the spread of new high priority weed species in the project area;
- Coordinate weed removal efforts with adjacent landowners, land managers, and/or Federal agencies to prevent the further spread of weed populations (*e.g.*, State roads and Bureau of Land Management);
- Provide and promote economic opportunities to the Navajo people by improving rangeland productivity and potentially providing economic opportunities to remove noxious plant species; and
- Develop a public education program focusing on weed identification, prevention, and removal techniques for local communities and non-profit organizations.

Duration

The NNIWMP encompasses a ten (10) year period but will incorporate a plan

review after five (5) years. Repeated treatments will be necessary for most species since seeds can be viable in soil for ten (10) or more years. Therefore, reoccurring weed treatments will be implemented until the desired management goal is reached.

Stakeholders

Cooperating agencies for this NEPA process include: the Navajo Nation, Arizona Department of Transportation (ADOT), Utah Department of Transportation (UDOT), Navajo Nation Soil and Water Conservation Districts (SWCD), San Juan Soil and Water Conservation District, U.S. Department of Agriculture (USDA) Natural Resource Conservation Service (NRCS), the Bureau of Land Management, USDA Animal and Plant Health Inspection Service (APHIS) and the National Park Service. The BIA will seek to coordinate weed removal projects on adjacent lands managed by the above-mentioned agencies and neighboring areas managed by the Coconino National Forest and the Hopi Tribe.

Next Steps

The BIA issued a Notice of Availability of the Draft Programmatic Environmental Impact Statement on October 29, 2021 (86 FR 60065). The BIA responded to public comments during the Draft Programmatic EIS public review period. In accordance with NEPA, an agency must prepare a concise public Record of Decision (ROD) at the time the agency makes a decision in cases involving an EIS (40 CFR 1505.2). The BIA will issue the ROD no earlier than 30 days after the Environmental Protection Agency publishes a notice in the **Federal Register** announcing the availability (40 CFR 1506.10).

Authority

This notice is published in accordance with section 1503.1 of the Council on Environmental Quality regulations (40 CFR 1500 *et seq.*) and the Department of the Interior Regulations (43 CFR part 46) implementing the procedural requirements of the National Environmental Policy Act (42 U.S.C. 4321 *et seq.*), and in accordance with the exercise of authority delegated to the Assistant Secretary—Indian Affairs by part 209 of the Department Manual.

Bryan Newland,

Assistant Secretary—Indian Affairs.

Privacy Act of 1974; System of Records

AGENCY: Office of the Secretary, Interior.

ACTION: Notice of a modified system of records.

SUMMARY: Pursuant to the provisions of the Privacy Act of 1974, as amended, the Department of the Interior (DOI) is issuing a public notice of its intent to modify the Privacy Act system of records, INTERIOR/DOI–45, HSPD–12: Identity Management System and Personnel Security Files. DOI is revising this notice to update the title of the system, update all sections of the system notice, propose new and modified routine uses, and provide general administrative updates to the remaining sections of the notice. Additionally, DOI is publishing a notice of proposed rulemaking (NPRM) elsewhere in the **Federal Register** to exempt this system of records from certain provisions of the Privacy Act. This modified system will be included in DOI's inventory of record systems.

DATES: This modified system will be effective upon publication. New or modified routine uses will be effective October 3, 2022. Submit comments on or before October 3, 2022.

ADDRESSES: You may send comments identified by docket number [DOI–2021–0006] by any of the following methods:

- *Federal eRulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for sending comments.

- *Email:* DOI_Privacy@ios.doi.gov. Include docket number [DOI–2021–0006] in the subject line of the message.

- *U.S. Mail or Hand-Delivery:* Teri Barnett, Departmental Privacy Officer, U.S. Department of the Interior, 1849 C Street NW, Room 7112, Washington, DC 20240.

Instructions: All submissions received must include the agency name and docket number [DOI–2021–0006]. All comments received will be posted without change to <https://www.regulations.gov>, including any personal information provided.

Docket: For access to the docket to read background documents or comments received, go to <https://www.regulations.gov>.
