SUPPLEMENTARY INFORMATION:

Background

On October 26, 2022, NMFS published a proposed rulemaking in response to a request from Ocean Wind that NMFS authorize the taking, by Level A harassment and Level B harassment, of marine mammals incidental to the construction of Ocean Wind 1, located off of New Jersey in and around lease area OCS–A–0498. When

published, the proposed rule (87 FR 64868; October 26, 2022) allowed for a 30-day public comment period, ending on November 25, 2022. On November 10, 2022, we received a request from the Natural Resource Defense Council (NRDC) for a 15-day extension of the public comment period. NMFS considered the request and the targeted timelines for this project and, in this case, is extending the comment period on the proposed rule for an additional 15 days to provide further opportunity for public comment. This extension provides a total of 45 days for public input on the proposed rule.

All comments and information submitted previously regarding the proposed rule for Ocean Wind 1 will be fully considered during the development of the final rule and LOA, if determined to be promulgated and issued, and do not need to be resubmitted.

Information Solicited

Interested persons may submit information, suggestions, and comments concerning the proposed rulemaking for the Ocean Wind 1 project (see **ADDRESSES**). NMFS will consider all information, suggestions, and comments from both the initial and extended public comment periods related to the request during the development of final regulations governing the incidental taking of marine mammals by Ocean Wind, if appropriate.
