ADVISORY COUNCIL ON HISTORIC PRESERVATION

Notice of Adoption of Policy Statement on Promotion and Value of Traditional Trades Training

AGENCY: Advisory Council on Historic Preservation.

ACTION: Notice of adoption of policy statement on promotion and value of traditional trades training.

SUMMARY: The Advisory Council on Historic Preservation has adopted Policy Statement on Promotion and Value of Traditional Trades Training.

DATES: The policy statement was adopted on October 19, 2020.

ADDRESSES: Address any questions concerning the policy statement to Druscilla J. Null, Advisory Council on Historic Preservation, 401 F Street NW, Suite 308, Washington, DC 20001.

FOR FURTHER INFORMATION CONTACT: Druscilla J. Null, (202) 517-1487, dnull@achp.gov.

SUPPLEMENTARY INFORMATION: The Advisory Council on Historic Preservation (ACHP), an independent federal agency created by the National Historic Preservation Act (NHPA), works to promote the preservation, enhancement, and sustainable use of our nation's diverse historic resources, and advises the President and the Congress on national historic preservation policy.

One of the ACHP's statutory duties under the NHPA is to encourage training and education in the field of historic preservation. In keeping with that mandate, at its November 7, 2019, business meeting, the ACHP initiated

discussions regarding traditional trades training. America is suffering from a shortage of skilled workers in the specialized traditional trades often required for historic preservation projects. Expanding opportunities for traditional trades training would be an important step in addressing this problem. Doing so is critical to the maintenance of our nation's historic places and to filling jobs that will help revitalize communities both physically and economically.

At its March 13, 2020, business meeting, the ACHP further explored traditional trades training and discussed the possibility of creating a task force to address the issue. The idea of developing a policy statement on the topic also was discussed. On May 28, 2020, ACHP Chairman Aimee Jorjani announced the creation of the ACHP Traditional Trades Training Task Force (Task Force). One of its stated goals was to develop recommendations for federal action that could be embodied in a formal ACHP policy statement.

The Task Force includes representatives of several federal agencies and individuals with historic preservation, education, and architecture expertise. In addition to ACHP Chairman Jorjani and ACHP Vice Chairman Rick Gonzalez, the following agencies and organizations are represented on the Task Force: The Department of the Interior; Department of Education; National Park Service Historic Preservation Training Center; National Park Service Western Center for Historic Preservation; National Center for Preservation Technology and Training; National Endowment for the Arts; National Trust for Historic Preservation; Preservation Maryland; Savannah Technical College; and Turner Restoration of Detroit.

Based on Task Force meeting discussions throughout the summer and fall, ACHP staff developed a draft policy statement that was reviewed by the Task Force. Based upon input on the outline, a draft of the policy statement was developed and provided to both the Task Force and the ACHP's standing Preservation Initiatives Committee for review. Following further refinement, the draft policy statement was sent to the full ACHP membership for review. The final version of the policy statement was adopted by vote of the ACHP members on October 19, 2020.

The ACHP Policy Statement on Promotion and Value of Traditional Trades Training discusses the need for and the benefits of expanded traditional trades training; suggests key principles that should guide federal, state, and local workforce development and

training efforts; and offers recommendations for action.

Text of the Policy Statement on Promotion and Value of Traditional Trades Training

What follows is the text of the adopted policy statement:

ACHP Policy Statement on Promotion and Value of Traditional Trades Training

Quality restoration work on historic buildings requires skilled workers in the traditional trades. Masons, carpenters, painters, plasterers, and others in the construction trades who know how to—and why we should—preserve, repair, replicate, and maintain historic materials and finishes are essential to historic preservation projects. However, the unfortunate reality is that there is an increasingly short supply of such craftspeople. More recognizable opportunities for workforce development and training in the traditional trades not only would help address this problem critical to the maintenance of our nation's historic places, but also would contribute to economic recovery and wellbeing through career pathways that benefit local communities.

The importance and value of the skilled craftworker and the need to support traditional trades training has been recognized in the historic preservation field for many years. The National Trust for Historic Preservation addressed the issue in its 1968 *Whitehill Report on Professional and Public Education for Historic Preservation* and revisited it almost 40 years later in a 2005 issue of its *Forum Journal* titled “Building Trades Education in the 21st Century.” The National Park Service (NPS) also addressed the importance of traditional trades training in a 1997 issue of its publication *Cultural Resource Management* titled “Preservation Trades and Crafts: Working in Preservation and Fostering the Trades.” In the years since these publications were issued, with an aging workforce and building stock, the need to increase the number of skilled craftspeople has only become more acute.

The federal government can play an important role in promoting traditional trades training. NPS already makes a significant contribution through the work of the agency's Historic Preservation Training Center, Western Center for Historic Preservation, and National Center for Preservation Technology and Training. Expanding the scope and scale of traditional trades
