Approval and Promulgation of Air Quality Implementation Plans; State of Colorado; Revised Denver and Longmont Carbon Monoxide Maintenance Plans, and Approval of Related Revisions

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to take direct final action approving a State Implementation Plan (SIP) revision submitted by the State of Colorado. On September 25, 2006, the Governor's designee submitted revised maintenance plans for the Denver metropolitan and Longmont carbon monoxide (CO) maintenance areas for the CO National Ambient Air Quality Standard (NAAQS). These revised maintenance plans address maintenance of the CO standard for a second ten-year period beyond redesignation, extend the horizon years, and contain revised transportation conformity budgets. In addition, Regulation No. 11, "Vehicle Emission Inspection Program," and Regulation No. 13, "Oxygenated Fuels Program," are removed from Denver's and Longmont's revised CO maintenance plans. EPA is proposing approval of the revised Denver and Longmont CO maintenance plans, and the revised transportation conformity budgets. In addition, EPA is proposing to approve the removal of Regulation No. 11 and Regulation No. 13 from Denver's and Longmont's revised CO maintenance plans. This action is being taken under section 110 of the Clean Air Act.

In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA

receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of the rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

DATES: Written comments must be received on or before September 17, 2007.

Approval and Promulgation of State Plan for Designated Facilities and Pollutants: Louisiana; Clean Air Mercury Rule (CAMR)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve the State Plan submitted by Louisiana on October 25, 2006. The plan addresses the requirements of EPA's Clean Air Mercury Rule (CAMR), promulgated on May 18, 2005 and subsequently revised on June 9, 2006. EPA is proposing that the submitted State Plan fully implements the CAMR requirements for Louisiana.

CAMR requires States to regulate emissions of mercury (Hg) from large coal-fired electric generating units (EGUs). CAMR establishes State budgets for annual EGU Hg emissions and requires States to submit State Plans that ensure that annual EGU Hg emissions will not exceed the applicable State budget. States have the flexibility to choose which control measures to adopt to achieve the budgets, including participating in the EPA-administered CAMR cap-and-trade program. In the State Plan that EPA is approving, Louisiana would meet CAMR requirements by participating in the EPA administered cap-and-trade program addressing Hg emissions.
