

- Part C Organization Determinations, Appeals, and Grievances (ODAG)
- Special Needs Plans Care Coordination (SNPCC)

CMS generally conducts program audits at the parent organization level in an effort to reduce burden and, for routine audits, subjects each sponsoring organization to all applicable program area protocols. For example, if a sponsoring organization does not offer a special needs plan, or an accrediting organization has deemed a special needs plan compliant with CMS regulations and standards, CMS would not apply the SNPCC protocol. Likewise, CMS would not apply the ODAG audit protocol to an organization that offers only a standalone prescription drug plan since that organization does not offer the MA benefit. Conversely, ad hoc audits resulting from referral may be limited in scope and, therefore, all program area protocols may not be applied.

The information gathered during this program audit will be used by the Medicare Parts C and D Oversight and Enforcement Group (MOEG) within the Center for Medicare (CM) and CMS Regional Offices to assess sponsoring organizations' compliance with Medicare program requirements. If outliers or other data anomalies are detected, Regional Offices will work in collaboration with MOEG and other divisions within CMS for follow-up and resolution. Additionally, MA and Part D organizations will receive the audit results and will be required to implement corrective action to correct any identified deficiencies. *Form Number:* CMS-10717 (OMB control number: 0938-1395); *Frequency:* Yearly; *Affected Public:* Private Sector, State, Local, or Tribal Governments, Federal Government, Business or other for-profits, Not-for-Profit Institutions; *Number of Respondents:* 182; *Total Annual Responses:* 182; *Total Annual Hours:* 36,444. SUPPLEMENTARY INFORMATION:

Name: National Committee on Vital and Health Statistics (NCVHS). Full Committee Meeting. The National Committee on Vital and Health Statistics was established by Congress to serve as the statutory [42 U.S.C. 242k(k)] advisory body to the Secretary of Health and Human Services for health data, statistics, privacy, and national health information policy. In addition, under the Health Insurance Portability and Accountability Act of 1996 (HIPAA),¹ NCVHS advises the Secretary on administrative simplification standards, including those for privacy, security, adoption and implementation of

transaction standards, unique identifiers, code sets, and operating rules adopted under the Patient Protection and Affordable Care Act (ACA)² and HIPAA. In that capacity, the Committee provides advice and assistance to the Department and serves as a forum for interaction with interested private sector groups on health data issues. It fulfills important review and advisory functions regarding health data and administrative standards of national and international scope, conducts studies of prevailing current topics, and makes recommendations for improvement of the Nation's health statistics and information systems.

Purpose: The meeting agenda will include briefings from HHS officials, time for members to discuss and consider current and proposed activities outlined in the NCVHS 2023–24 workplan, and hold discussions on several health data policy topics, including health care standards development and cybersecurity.

The Subcommittee on Standards plans to hold a panel discussion on the approach used by Standards Development Organizations (SDOs) to evaluate and assess the readiness of new and updated standards prior to release for national implementation. This includes discussion on potential risks and impacts across existing standards, calculation of business cost recovery, and planning for the anticipated ICD-11 implementation timeline and expected milestones. Additional briefings on related topics such as HIPAA enforcement also may be included on the agenda.

The NCVHS Workgroup on Timely and Strategic Action to Inform ICD-11 Policy will report to the full Committee on recent activities, including information learned from the ICD-11 Expert Roundtable meeting held August 3, 2023, and its anticipated workplan in the upcoming 6–12 month period.

The Subcommittee on Privacy, Confidentiality, and Security will facilitate a discussion on proposed recommendations to HHS to strengthen the HIPAA Security Rule following recent Committee briefings on the topic. Finally, the Committee will allot time to discuss draft language for the Committee's 2023 Report to Congress.

The Committee will also reserve time on the agenda for public comment. Meeting times and topics are subject to change. Please refer to the agenda posted on the NCVHS website for
