Part 555 provides a means by which motor vehicle manufacturers may apply for temporary exemptions from the Federal motor vehicle safety standards on the basis of substantial economic hardship, facilitation of the development of new motor vehicle safety or low-emission engine features, or existence of an equivalent overall level of motor vehicle safety.

Federal Motor Vehicle Safety Standard (FMVSS) No. 123, *Motorcycle controls and displays* (49 CFR 571.123) specifies requirements for the location, operation, identification, and illumination of motorcycle controls and displays, and requirements for motorcycle stands and footrests. Among other requirements, FMVSS No. 123 specifies that for motorcycles with rear wheel brakes, the rear wheel brakes must be operable through the right foot control, although the left handlebar is permissible for motor-driven cycles (See S5.2.1, and Table 1, Item 11).
