BILLING CODE 6712-01-P**FEDERAL COMMUNICATIONS COMMISSION****[OMB 3060-0157, OMB 3060-0996; FR ID 282810]****Information Collections Being Reviewed by the Federal Communications Commission Under Delegated Authority****AGENCY:** Federal Communications Commission.**ACTION:** Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees. The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of

Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before May 5, 2025. If you anticipate that you will be submitting comments but find it difficult to do so within the time period allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email *PRA@fcc.gov* and to *Cathy.Williams@fcc.gov*.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418-2918.

SUPPLEMENTARY INFORMATION:*OMB Control Number:* 3060-0157.

Title: Section 73.99, Presunrise Service Authorization (PSRA) and Postsunset Service Authorization (PSSA).

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 200 respondents; 200 responses.

Frequency of Response: Annual and on occasion reporting requirements.

Estimated Time per Response: 0.25 hours.

Total Annual Burden: 50 hours.*Total Annual Costs:* \$15,000.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this collection is contained in Section 154(i) of the Communications Act of 1934, as amended.

Needs and Uses: The information collection requirements contained in 47 CFR 73.99(e) requires the licensee of an AM broadcast station intending to operate with a presunrise or postsunset service authorization to submit by letter to the Commission the licensee's name, call letters, location, the intended service, and a description of the method whereby any necessary power reduction will be achieved. Upon submission of this information, operation may begin without further authority. The FCC staff uses the letter to maintain complete technical information about the station to ensure that the licensee is in full compliance with the Commission's rules and will not cause interference to other stations.

OMB Control Number: 3060-0996.

Title: AM Auction Section 307(b) Submissions.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Not-for-profit entities; State, local or Tribal governments.

Number of Respondents and Responses: 210 respondents; 210 responses.

Estimated Time per Response: 0.5-6 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for the information collection requirements is contained in Sections 154(i), 307(b) and 309 of the Communications Act of 1934, as amended.

Total Annual Burden: 1,029 hours.*Total Annual Costs:* \$2,126,100.

Needs and Uses: When Congress granted auction authority in the Balanced Budget Act for commercial broadcast and secondary broadcast services, it did not eliminate or revise section 307(b) of the Communications Act. Section 307(b) requires that the Commission effect a fair, efficient, and equitable distribution of radio stations throughout the United States.

Section 307(b) information was previously collected in the framework of comparative hearing proceedings when mutually exclusive AM applications proposing to serve different communities were filed, or when non-mutually exclusive AM applications proposed a major modification of facility change. Since the comparative hearing process was discontinued as a result of the implementation of competitive bidding, the Commission now collects the section 307(b) information and undertakes a section 307(b) analysis in the context of auction proceedings. For example, for mutually exclusive AM applications proposing to serve different communities, the process is performed prior to conducting the auction.

In order to evaluate section 307(b) considerations, the Commission requires the submission of supplemental information subsequent to the AM auction filing window application (FCC Form 175, including technical information) submission. Section 307(b) information is not collected in the initial auction filing window application because Section 307(b) considerations are not pertinent to all window filed applications. Section 307(b) is relevant only when the mutually exclusive AM application group consists of applications to serve different communities of license.

Specifically, where the mutually exclusive group consists of proposals to serve different communities of license, each applicant within the group must submit an amendment containing supplemental information such as the following: (1) the area and population within the proposed 2 mV/m and 0.5 mV/m contours; (2) the number of stations licensed to the proposed community of license; (3) the number of stations providing service to the proposed community of license; (4) the population (according to the latest Census data) of the proposed community of license; (5) a description of the civic, cultural, religious, social or commercial attributes of the proposed community of license; and (6) any other information that the applicant determines relevant. The Commission will dismiss, without further processing, the previously filed AM auction filing window application and technical proposal of any applicant that fails to file an amendment addressing the section 307(b) criteria, where required.

In the licensing process for new AM stations, applicants' proposals are subject to a threshold determination under section 307(b) and may, in certain cases, qualify for a dispositive preference relative to the other mutually exclusive station proposals in the group. In such cases, the applicant proposing the community receiving the dispositive section 307(b) preference continues to the next stage of the licensing process, and thus may receive an authorization by virtue of the section 307(b) determination, rather than through competitive bidding.

In addition, certain mutually exclusive application groups containing major modification applications are permitted to resolve their mutual exclusivities through settlement agreements. These agreements must comply with 47 CFR 73.3525, Agreements for Removing Application Conflicts (approved under OMB 3060-0213). To facilitate processing, eligible applicants who intend to settle should promptly notify the Commission in writing that a pre-auction settlement is forthcoming.

Federal Communications Commission.

Marlene Dortch,

Secretary.

SUPPLEMENTARY INFORMATION: This previously approved information collection project was last published in the **Federal Register** (89 FR 105617) on December 27, 2024, and allowed 60 days for public comment. No public comment was received in response to the notice. This notice announces our intent to submit this collection, which expires February 28, 2025, to OMB for approval of an extension and solicit comments on specific aspects for the proposed information collection.

The IHS is submitting the proposed information collection to OMB for review, as required by the Paperwork Reduction Act of 1995, as amended, and its implementing regulations. This notice is soliciting comments from members of the public and affected agencies as required by 44 U.S.C. 3506(c)(2)(A) and 5 CFR 1320.8(d) concerning the proposed collection of information to: (1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility; (2) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information; (3) Enhance the quality, utility, and clarity of the information to be collected; and (4) Minimize the burden of the collection of information on those who are to respond; including through the use of appropriate automated collection techniques of other forms of information technology, e.g., permitting electronic submission of responses.
