NUCLEAR REGULATORY COMMISSION

[Docket No. 50-020]

Massachusetts Institute of Technology; Notice of Acceptance for Docketing of the Application and Notice of Opportunity for Hearing Regarding Renewal of Massachusetts Institute of Technology Research Reactor Facility Operating License No. R-37 for an Additional 20-Year Period

The U. S. Nuclear Regulatory Commission (NRC or the Commission) is considering an application for the renewal of Facility Operating License No. R-37, which authorizes the Massachusetts Institute of Technology (the licensee) to operate the Massachusetts Institute of Technology Research Reactor (MITR) at a maximum steady-state thermal power of 6 Megawatts (MW) thermal power. The proposed action would renew Facility License No. R-37 for a period of twenty years from the date of issuance of the renewed license. The current license for the MITR expired on August 8, 1999.

On July 8, 1999, the Commission's staff received an application from the licensee filed pursuant to 10 CFR Part 50.51(a), to renew Facility Operating License No. R-37 for the MITR. Because the license renewal application was filed in a timely manner in accordance with 10 CFR 2.109, the license will not be deemed to have expired until the license renewal application has been finally determined.

The Commission's staff has determined that the licensee has submitted sufficient information in accordance with 10 CFR 50.33 and 50.34 that the application is acceptable for docketing. The current Docket No. 50-020 for Facility Operating License No. R-37, will be retained.

The docketing of the renewal application does not preclude requesting additional information as the review proceeds, nor does it predict whether the Commission will grant or deny the application. Prior to a decision to renew the license, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations.

Within 60 days after the date of publication of this notice, any person(s) whose interest may be affected by this proceeding and who wishes to participate as a party in the proceeding must file a written request via electronic submission through the NRC E-filing system for a hearing and a petition for leave to intervene.
