BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP20–456–000]

Enable Mississippi River Transmission, LLC; Notice of Application

Take notice that on May 15, 2020, Enable Mississippi River Transmission, LLC (MRT), 910 Louisiana Street, Suite 4840, Houston, Texas 77002, filed in the above referenced docket an application pursuant to section 7(c) of the Natural Gas Act (NGA), 15 U.S.C. 717f(c) of the regulations of the Federal Energy Regulatory Commission requesting authorization for an amendment to its certificate of public convenience necessity pursuant to Part 157, Subpart A of the Commission's regulations for the East Unionville Storage Field located in Lincoln Parish, Louisiana. MRT seeks authorization to reduce East Unionville's certificated cushion gas capacity to 19.1 Bcf and to increase East Unionville's working gas capacity to 36.1 Bcf. MRT states that with the approval of these proposed changes, the East Unionville's certificated total capacity of 55.2 Bcf will not change. MRT also requests approval of the accounting entries associated with the amendments to the East Unionville Certificate, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review on the Commission's website web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208–3676 or TTY, (202) 502–8659. At this time, the Commission has suspended access to the

Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID–19), issued by the President on March 13, 2020.

Any questions concerning this application may be directed to Jonathan Christian, Associate General Counsel, Enable Mississippi River Transmission, LLC, 910 Louisiana Street, 48th Floor, Houston, TX 77002, by phone at (346) 701–2146, or by email at jonathan.christian@enablemidstream.com.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition

to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list and will be notified of any meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://ferc.gov>) using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. At this time, the Commission has suspended access to the Commission's Public Reference Room, due to the proclamation declaring a National Emergency concerning the Novel Coronavirus Disease (COVID-19), issued by the President on March 13, 2020. For assistance, contact the Federal Energy Regulatory Commission at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TTY, (202) 502-8659.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

Comment Date: 5:00 p.m. Eastern Standard Time on June 17, 2020.

Dated: May 27, 2020.

[Project No. 2309-032]

Jersey Central Power & Light Company, PSEG Fossil, LLC, Yards Creek Energy, LLC; Notice of Application for Partial Transfer of License and Soliciting Comments, Motions to Intervene, and Protests

On May 6, 2020, Jersey Central Power & Light Company (JCP&L or transferor) and PSEG Fossil, LLC (PSEG) current co-licensees, and Yards Creek Energy, LLC (YCE or transferee) filed a joint application for a partial transfer of the license for the Yards Creek Pumped Storage Hydroelectric Project No. 2309. The project is located on Yards Creek in Warren County, New Jersey.

The applicants seek Commission approval for a partial transfer of the license for the project to remove JCP&L as a co-licensee and to add YCE as co-licensee.

Applicants Contact: For transferor: Anne M. Rericha, Attorney, FirstEnergy Service Company, 76 S. Maine Street, Akron, Ohio 44308, Phone: (330) 374-6550, Email: arericha@firstenergycorp.com and Morgan E. Parke, Associate General Counsel, FirstEnergy Service Company, 76 S. Maine Street, Akron, Ohio 44308, Phone: (330) 384-4595, Email: mparke@firstenergycorp.com

For co-licensee: Cara J. Lewis, Managing Counsel—Federal Regulatory, PSEG Services Corporation, 80 Park Plaza—T5G, Newark, New Jersey 07102, Phone: (973) 430-8836, Email: cara.lewis@pseg.com

For transferee: Kimberly Ognisty, Winston & Strawn LLC, 1901 L Street NW, Washington, DC 20036, Phone: (202) 282-5217, Email: kognisty@winston.com

FERC Contact: Anumzziatta Purchiaroni, (202) 502-6191, Anumzziatta.purchiaroni@ferc.gov.

Deadline for filing comments, motions to intervene, and protests: 30 days from the date that the Commission issues this notice. The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commentors can

submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of

your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY). In lieu of electronic filing, please send a paper copy to: Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. The first page of any filing should include docket number P-2309-032.

Dated: May 27, 2020.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 15022-000]

Warrior Hydro, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On January 28, 2020, Warrior Hydro, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of a hydropower project to be located at the U.S. Army Corps of Engineers' (Corps) William Bacon Oliver Lock and Dam on the Black Warrior River near the towns of Tuscaloosa and Northport in Tuscaloosa County, Alabama. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would consist of the following: (1) An 80-foot-long, 140-foot-wide intake channel; (2) four 10-foot-diameter, 60-foot-long steel siphon penstocks, near the south abutment of the Corps' dam; (3) a 80-foot-long, 40-foot-wide powerhouse containing four generating units with a total capacity of 9.2 megawatts; (4) a 100-foot-long, 140-foot-wide tailrace; and (5) a 0.9-mile-long, 34.5kV transmission line. The proposed project would have an
