SUPPLEMENTARY INFORMATION:

Background

On November 14, 2002, the Department of Commerce ("the Department") published the final results in this administrative review. *See Tapered Roller Bearings and Parts Thereof, Finished and Unfinished, from the People's Republic of China: Final Results of 2000-2001 Administrative Review, Partial Rescission of Review, and Determination to Revoke Order, in Part, 67 FR 68990 (November 14, 2002)* ("Final Results"). The period of review is June 1, 2000, through May 31, 2001.

On November 12, 2002, ministerial error allegations were submitted by respondent Zhejiang Machinery Import & Export Corp. ("ZMC") and the petitioner.

Scope of Review

Merchandise covered by this review includes tapered roller bearings and parts thereof, finished and unfinished, from the People's Republic of China

("PRC"); flange, take up cartridge, and hanger units incorporating tapered roller bearings; and tapered roller housings (except pillow blocks) incorporating tapered rollers, with or without spindles, whether or not for automotive use. This merchandise is currently classifiable under the *Harmonized Tariff Schedule* of the United States ("HTSUS") item numbers 8482.20.00, 8482.91.00.50, 8482.99.30, 8483.20.40, 8483.20.80, 8483.30.80, 8483.90.20, 8483.90.30, 8483.90.80, 8708.99.80.15, and 8708.99.80.80. Although the HTSUS item numbers are provided for convenience and customs purposes, the written description of the scope of the order and this review is dispositive.

Amended Final Results

After analyzing the ministerial error comments submitted by the above-noted parties in this review, we have determined, in accordance with section 771(h) of the Tariff Act of 1930, as amended, and 19 CFR 351.224, that we made a ministerial error in the margin calculation for ZMC. Specifically, we inadvertently failed to correct a mislabeled control number reported by ZMC that we stated in the *Final Results* we intended to change. For a detailed discussion of the ministerial error allegations and the Department's analysis, *see* November 27, 2002 memorandum from team to Susan H. Kuhbach entitled *Ministerial Error Allegations*, which is on file in the Department's Central Records Unit located in the main Commerce building in Room B-099.

Therefore, we are amending the *Final Results* to reflect the correction of the above-noted ministerial error for ZMC. Based on this revision, we determine that the following dumping margins exist for the period June 1, 2000, through May 31, 2001:

Exporter/manufacturer	Revised weighted-average margin percentage
China National Machinery Import & Export Corporation	0.71
Wanxiang Group Corporation	0.00
Tianshui Hailin Import and Export Corporation and Hailin Bearing Factory	0.00
Luoyang Bearing Corporation (Group)	0.06 (<i>de minimis</i>)
Zhejiang Machinery Import & Export Corp.	0.53
PRC-wide rate	33.18

Assessment Rates

Absent an injunction from the U.S. Court of International Trade, the Department will issue appropriate assessment instructions directly to the Customs Service within 15 days of

publication of these amended final results of review.

We are issuing and publishing this determination and notice in accordance with sections 751(a)(1) and 771(i) of the Act.

Dated: November 27, 2002.

Assistant Secretary for Import Administration.

The purpose of this data collection is to provide information on the value of Hawaii's coral reef habitats to specific segments of the U.S. population. The study will measure total economic values for Hawaii's coral reefs. This effort is designed to provide defensible information for both resource managers and damage assessments on the value of coral reef habitats and alternative management actions. The project is designed as a phased three-year effort to ensure effective use of all the available information. This effort will involve development of extensive knowledge about how reef habitats are perceived, implication of alternative management actions, designing original survey instruments, interviewing of a large number of respondents (1500-2000), conducting formal statistical analysis of the data, and developing a decision

support system for use by resource managers. For total economic value, a nationally-oriented survey will be conducted using stated preferences methods.

II. Method of Collection

Up to 48 one-on-one cognitive interviews will be conducted. In addition, one pretest of the full survey instrument will be tested for a response of up to 150 usable observations. The final survey instrument will be administered to a sample of up to 2000 people.

SUPPLEMENTARY INFORMATION:**I. Abstract**

The Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), as amended in 1996, provides for the nomination for members of Fishery Management Councils by state governors and Indian treaty tribes, for the designation of a principal state fishery official who will perform duties under the Magnuson-Stevens Act, and for a request by a state for reinstatement of state authority over a managed fishery. Nominees for council membership must provide the governor or tribe with background documentation, which is then submitted to NOAA with the nomination. The information submitted with these actions will be used to ensure that the requirements of the Magnuson-Stevens Act are being met.
