Public Land Order No. 7899; Partial Revocation of Public Land Orders No. 5169, 5170, 5171, 5173, 5179, 5180, 5184, 5186, 5187, 5188, 5353, Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Public land order.

SUMMARY: This order partially revokes 11 Public Land Orders (PLO) insofar as they affect approximately 9,727,730.01 acres of public lands reserved for study and classification, as appropriate, by the Department of the Interior and supersedes PLO Nos. 6477 and 6559. The purposes for which these lands were withdrawn no longer exist as described in the analysis and decisions made through the Kobuk-Seward Peninsula Record of Decision and Approved Resource Management Plan of 2008 (Kobuk-Seward Pen RMP).

DATES: This Public Land Order takes effect on January 19, 2021.

SUPPLEMENTARY INFORMATION: This Order implements the recommendations made in the BLM's Kobuk-Seward Pen RMP that serves as the detailed statement required under the National Environmental Policy Act Section 102(2)(C). PLO Nos. 5169, 5170, 5171, and 5173, as amended, modified or corrected, withdrew lands for selection by Village and Regional Corporations under Sec. 11(a)(3) of Alaska Native Claims Settlement Act (ANCSA), and for classification. Sec. 22(h)(4) of ANCSA states "the Secretary is authorized to terminate any withdrawal . . . whenever he determines the withdrawal is no longer necessary." The purposes for which these lands were withdrawn were satisfied by the analysis conducted during the development of the BLM's Kobuk-Seward Pen RMP. PLO No. 5179, as amended, modified or corrected, withdrew lands in aid of legislation concerning addition to, or creation of, units of the National Park, National Forest, Wildlife Refuge, and Wild and Scenic Rivers systems, and to allow for classification of the lands. Any additions to or creation of new units of

National Parks, National Forests, Wildlife Refuges or Wild and Scenic Rivers from the land withdrawn by PLO No. 5179 were met by the Alaska National Interest Lands Conservation Act (ANILCA). The classification of the lands withdrawn by PLO No. 5179 was satisfied by the analysis conducted during the development of the Kobuk-Seward Pen RMP. PLO No. 5180, as amended, modified or corrected, withdrew lands to allow for classification and for the protection of the public interest in these lands. The classification and protection of the public interest in the lands withdrawn by PLO No. 5180 has been satisfied by the analysis conducted during the development of the Kobuk-Seward Pen RMP. PLO No. 5184, as amended, modified or corrected, withdrew lands to allow for classification or reclassification of some of areas withdrawn by ANCSA Sec. 11. These purposes were satisfied by the analysis conducted during the development of the Kobuk-Seward Pen RMP. PLO No. 5186, as amended, modified, or corrected, withdrew lands for classification and protection of the public interest in lands not selected by the State of Alaska. The classification of the lands withdrawn by PLO No. 5186 has been satisfied by the analysis conducted during the development of the Kobuk-Seward Pen RMP. PLO No. 5187, as amended, modified or corrected, withdrew lands for classification and protection of the public interest in lands in military reservations. The classification of the lands withdrawn by PLO No. 5187 has been satisfied by the analysis conducted

during the development of the Kobuk-Seward Pen RMP. PLO No. 5188, as amended, modified, or corrected, withdrew the lands in former reservations for classification and protection of the public interest for the use and benefit of Alaska Natives pursuant to Section 17(d)(1) of the Alaska Native Claims Settlement Act. The purposes of PLO No. 5188 were satisfied by the analysis conducted during the development of the BLM's Kobuk-Seward Pen RMP. PLO No. 5353, as amended, modified, or corrected, withdrew lands under the authority of ANCSA Sec. 17(d)(1), pending determination of eligibility of certain Native communities under ANCSA Sec. 11(b)(3), and classification of lands not conveyed pursuant to ANCSA Sec. 14. In the Kobuk-Seward Peninsula area, the Native Village of Council, Alaska, was determined eligible February 11, 1974, as well as the analysis conducted during the development of the Kobuk-Seward Pen RMP; therefore, the purpose for which PLO No. 5353 was withdrawn has been satisfied. Some lands covered by the revocation of the above listed withdrawals have been top filed by the State of Alaska per the Alaska Statehood Act. Upon revocation of the above listed withdrawals, the top filings will convert to selections, subject to valid existing rights. Lands validly selected by or conveyed to the State of Alaska are not subject to ANILCA Sec. 810, as they no longer fit the definition of public lands. The Sec. 810 analysis for the approved Kobuk-Seward Pen RMP found no significant restriction on subsistence uses due to this action.

Order

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714, and Section 22(h)(4) of the Alaska Native Claims Settlement Act of 1971, 43 U.S.C. 1621(h)(4), it is ordered as follows:

2. PLO No. 5418, effective March 1974, amends PLO No. 5180 to add all unreserved public lands in Alaska, or those lands that may become unreserved unless specified by order at that time. Upon revocation, the lands in this order will not be subject to the terms and conditions of PLO No. 5418, which amended PLO No. 5180, but will continue to be subject to the terms and conditions of any other withdrawal, application, segregation of record, and other applicable law. In 1983, PLO No. 6477 modified the segregation of PLO Nos. 5170, 5179, 5180, and 5184. In 1984, PLO No. 6559 further modified the segregation of PLO No. 5180. PLO Nos. 6477 and 6559 will be superseded by this Order.
3. At 8 a.m. AKST on February 18, 2021, the lands described in Paragraph 1 shall be open to all forms of appropriation under the general public land laws, including location and entry under the mining laws, leasing under the Mineral Leasing Act of February 25, 1920, as amended, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law. All valid applications received at or prior to 8 a.m. AKST on February 18, 2021, shall be considered as simultaneously filed at that time. Those received thereafter shall be considered in the order of filing. Appropriation of any of the lands referenced in this PLO under the general mining laws prior to the date and time of revocation remain unauthorized. Any such attempted appropriation, including attempted adverse possession under 30 U.S.C. 38, shall vest no rights against the United States. State law governs acts required to establish a location and to initiate a right of possession where not in conflict with Federal law. The BLM will not intervene in disputes between rival locators over possessory rights since Congress has provided for such determinations in local courts.

SUPPLEMENTARY INFORMATION: Gold Acquisition Corporation (GAC), a wholly-owned subsidiary of Pershing Gold Corporation, itself a wholly-owned subsidiary of Americas Gold and Silver Corporation, proposes an expansion to the existing Relief Canyon Gold Mine. The mine is located in Pershing County, Nevada, approximately 16 miles east-northeast of Lovelock, Nevada. The proposed expansion is located within GAC's authorized Plan of Operations boundary and proposes to modify the existing Plan of Operations as follows:

- Create roughly 576 acres of new surface disturbance on public and private land including re-disturbance of about 137 acres of previously disturbed vegetation communities.
- Expand the footprint of the existing approved pit area by approximately 84 acres (68 acres of public land and 16 acres of private land) with resultant elimination of a portion of existing Waste Rock Storage Facility (WRSF) 4.
- Mine to final pit bottom elevation of 4,420 feet above mean sea level (ft amsl), which will involve continued mining below the water table, and result in a post-mining pit lake that is predicted to reach an equilibrium elevation of 4,887 ft amsl roughly 50 years after completion of mining.
- Construct a dewatering conveyance pipeline and Rapid Infiltration to re-infiltrate up to 900 gallons per minute of mine dewatering water during the last three months of proposed Phase II mining.
- Install up to 50 vertical and horizontal drains in the pit wall to ensure pit slope stability and supplement pit dewatering operations.

- Convert up to 50 exploration drill holes located in and adjacent to the pit as vertical or near vertical drains and/or piezometer to monitor water levels to ensure pit slope stability and supplement pit dewatering operations.

- Expand WRSFs, heap leach pads, and construct process ponds, new growth media stockpiles, diversion ditches for stormwater control, and ancillary facilities.

- Expand yard and crusher-conveyor areas, roads, and fences.

- Close and reclaim all project facilities at the completion of Phase II.

Draft EIS Analysis Process

The purpose of the comment period is for the public to comment on the Draft EIS. The Draft EIS, through scoping, has identified and analyzed impacts to the following resources: Air and atmospheric resources, migratory birds and special status species, golden eagles, water quality (creation of a pit lake), and groundwater quantity. The Draft EIS describes and analyzes the proposed Project's direct, indirect, and cumulative impacts on all affected resources.

The BLM has consulted and continues to consult with Native American tribes on a government-to-government basis in accordance with Executive Order 13175 and other policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration.

Federal, State, and local agencies, along with tribes and other stakeholders that may be interested in or affected by the proposed project that the BLM is evaluating, are invited to participate in the comment process.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may request in your comment that your personal identifying information be withheld from public review, we cannot guarantee that we will be able to do so.
