

comprehensive St. Thomas/St. John FMP that describes and analyzes the proposed management alternatives. The new FMP will provide the best available scientific information regarding the management of St. Thomas/St. John EEZ fisheries, within the context of Federal fisheries management in the U.S. Caribbean. Those alternatives will include, but are not limited to, a “no action” alternative regarding the continuation of species-based Federal fishery management in St. Thomas/St. John, as well as alternatives to revise the management of U.S. Caribbean fisheries when developing the comprehensive St. Thomas/St. John FMP. In addition, there will be alternatives to modify the current FMUs including, but not limited to, the “no action” alternative. Other actions could be included in the DEIS in response to public feedback during the scoping process.

In accordance with NOAA’s Administrative Order NAO 216–6, Section 5.02(c), the Council and NMFS have identified preliminary environmental issues as a means to initiate discussion for scoping purposes only. These preliminary issues may not represent the full range of issues that eventually will be evaluated in the DEIS.

After the DEIS associated with the development of the Comprehensive St. Thomas/St. John FMP is completed, it will be filed with the Environmental Protection Agency (EPA). After filing, the EPA will publish a notice of availability of the DEIS for public comment in the **Federal Register**. The DEIS will have a 45-day comment period. This procedure is pursuant to regulations issued by the Council on Environmental Quality (CEQ) for implementing the procedural provisions of the National Environmental Policy Act (NEPA; 40 CFR parts 1500–1508) and to NOAA’s Administrative Order 216–6 regarding NOAA’s compliance with NEPA and the CEQ regulations.

The Council and NMFS will consider public comments received on the DEIS in developing the final environmental impact statement (FEIS), and before voting to submit the FMP to NMFS for Secretarial review, approval, and implementation.

NMFS will announce in the **Federal Register** the availability of the FMP for public review during the Secretarial review period. During Secretarial review, NMFS will also file the FEIS with the EPA for a final 30-day public comment period. This comment period will be concurrent with the Secretarial review period and will end prior to final agency action to approve, disapprove, or partially approve the FMP.

NMFS will announce in the **Federal Register**, all public comment periods on the FMP, its proposed implementing regulations, and the associated FEIS. NMFS will consider all public comments received during the Secretarial review period, whether they are on the FMP, the proposed regulations, or the FEIS, prior to final agency action.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 7, 2014.

Emily H. Menashes,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Gulf of Mexico Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council (Council) will hold a meeting of its Technical Subcommittee.

DATES: The meeting will be held from 8:30 a.m. on Wednesday, May 28 until 4 p.m. on Thursday, May 29, 2014.

ADDRESSES: The meeting will be held at the Gulf of Mexico Fishery Management Council’s office, 2203 North Lois Avenue, Suite 1100, Tampa, FL 33607.

FOR FURTHER INFORMATION CONTACT: Dr. John Froeschke, Fishery Biologist/Statistician, Gulf of Mexico Fishery Management Council; telephone: (813) 348–1630; fax: (813) 348–1711; email: john.froeschke@gulfcouncil.org.

SUPPLEMENTARY INFORMATION: The charter vessel technical subcommittee will meet to discuss methods to improve data collection and data reporting for charter vessels in the U.S. Atlantic and Gulf of Mexico Fisheries. The subcommittee will begin work to develop recommendations on how to achieve an electronic reporting system for charter vessels. The group will consider both the national and regional plans for electronic reporting as well as agency and stakeholder perspectives and objectives. The meeting will focus on technical considerations of electronic reporting such as survey type, reporting

requirements, quality assurance and quality control mechanisms, reporting mechanisms, and timeliness of fisheries data. The subcommittee will discuss potential costs, barriers to implementation, administrative responsibilities, and timelines to implementation.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305c of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council’s intent to take final action to address the emergency.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Kathy Pereira at the Council Office (see **ADDRESSES**), at least 5 working days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: May 7, 2014.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
