the proposed project NBP representatives will be present at the scoping meetings to describe their proposal. Interested groups and individuals are encouraged to attend the meetings and to present comments on the environmental issues they believe should be addressed in the EIS/EIR. A transcript of each meeting will be made so that your comments will be accurately recorded.

On January 10 and 11, 2001, we will also be conducting a site visit to the project area. This will be an on-the-ground inspection, conducted by automobile on public roads, or where access to private property has been granted (specific locations to be determined later). Anyone interested in participating in the site visit may contact the Commission's Office of External Affairs identified at the end of this notice for more details and must provide their own transportation.

### **Becoming an Intervenor**

In addition to involvement in the EIS/ EIR scoping process, you may want to become an official party to the proceeding, known as an "intervenor." Intervenors play a more formal role in the process. Among other things, intervenors have the right to receive copies of case-related Commission documents and filings by other intervenors. Likewise, each intervenor must provide 14 copies of its filings to the Secretary of the Commission and must send a copy of its filings to all other parties on the Commission's service list for this proceeding. If you want to become an intervenor you must file a motion to intervene according to Rule 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.214) (see appendix 2). Only intervenors have the right to seek rehearing of the Commission's decision.

Affected landowners and parties with environmental concerns may be granted intervenor status upon showing good cause by stating that they have a clear and direct interest in this proceeding which would be adequately represented by any other parties. You do not need intervenor status to have your environmental comments considered.

Clean Water Act Section 303(d): Availability of Proposed Determinations That Total Maximum Daily Loads (TMDLs) Are Not Needed

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability.

**SUMMARY:** This notice announces the availability for comment EPA proposed determinations that TMDLs are not

needed for 54 waterbody/pollutant combinations in the Mermenatu and Vermilion/Teche river basins. EPA prepared the proposed determinations in response to a Court Order dated October 1, 1999, in the lawsuit Sierra Club, et al. v. Clifford et al., No. 96–0527, (E.D. La.). Under this court order, EPA is required to prepare TMDLs when needed for waters on the Louisiana 1998 section 303(d) list by December 31, 2007. EPA is also required to add or delete waters to the schedule as new data confirms that waters are or are not meeting water quality standards.

**DATES:** Comments on the 54 proposed determinations that TMDLs are not needed must be submitted in writing to EPA on or before January 17, 2001.

ADDRESSES: Comments on the proposed determinations should be sent to Ellen Caldwell, Environmental Protection Specialist, Water Quality Protection Division, U.S. Environmental Protection Agency Region 6, 1445 Ross Ave., Dallas, TX 75202-2733. For further information, contact Ellen Caldwell at (214) 665-7513. The administrative record file for the proposed determinations is available for public inspection at this address as well. The administrative record file may be viewed at www.epa.gov/region6/water/ tmdl.htm, or obtained by calling or writing Ms. Caldwell at the above address. Please contact Ms. Caldwell to schedule an inspection.

# **FOR FURTHER INFORMATION CONTACT:** Ellen Caldwell at (214) 665–7513.

SUPPLEMENTARY INFORMATION: In 1996, two Louisiana environmental groups, the Sierra Club and Louisiana Environmental Action Network (plaintiffs), filed a lawsuit in Federal Court against the United States Environmental Protection Agency (EPA), styled Sierra Club, et al. v. Clifford et al., No. 96–0527, (E.D. La.). Among other claims, plaintiffs alleged that EPA failed to establish Louisiana TMDLs in a timely manner. Discussion of the court's order may be found at 65 FR 54032 (September 6, 2000).
