Regulatory Findings

We have determined that this proposed AD would not have federalism implications under Executive Order 13132. This proposed AD would not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government.

For the reasons discussed above, I certify that the proposed regulation:

- 1. Is not a "significant regulatory action" under Executive Order 12866;
- 2. Is not a "significant rule" under the DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979); and
- 3. Will not have a significant economic impact, positive or negative, on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

We prepared a regulatory evaluation of the estimated costs to comply with this proposed AD. See the **ADDRESSES** section for a location to examine the regulatory evaluation.

The Proposed Amendment

Accordingly, under the authority delegated to me by the Administrator, the FAA proposes to amend 14 CFR part 39 as follows:

PART 39—AIRWORTHINESS DIRECTIVES

1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

2. The FAA amends § 39.13 by adding the following new airworthiness directive (AD):

Gulfstream Aerospace LP (Formerly Israel Aircraft Industries, Ltd.): Docket No. FAA–2004–19564; Directorate Identifier 2004–NM–103-AD.

Comments Due Date

(a) The Federal Aviation Administration must receive comments on this AD action by December 10, 2004.

Affected ADs

(b) None.

Applicability

(c) This AD applies to Model Galaxy and Gulfstream 200 airplanes, certificated in any category, serial numbers 004 through 084 inclusive.

Unsafe Condition

(d) This AD was prompted by a report of an oxygen leak in the cockpit mask box. We are issuing this AD to prevent a broken oxygen supply line, which could result in oxygen being unavailable to the flightcrew.

Compliance

(e) You are responsible for having the actions required by this AD performed within the compliance times specified, unless the actions have already been done.

Inspection

(f) Within 50 flight hours after the effective date of this AD, perform a general visual inspection for damage of the flexible supply lines of the pilot and copilot oxygen mask boxes. Use the Accomplishment Instructions of Gulfstream Alert Service Bulletin 200–35A–202, Revision 1, dated August 27, 2003, to do the inspection. If any damage is found, perform corrective actions before further flight in accordance with the service bulletin. All replacement parts must be new or serviceable. Repeat the inspection thereafter at intervals not to exceed 50 flight hours until the replacement required by paragraph (g) of this AD has been done.

Note 1: For the purposes of this AD, a general visual inspection is: "A visual examination of an interior or exterior area, installation, or assembly to detect obvious damage, failure, or irregularity. This level of inspection is made from within touching distance unless otherwise specified. A mirror may be necessary to ensure visual access to all surfaces in the inspection area. This level of inspection is made under normally available lighting conditions such as daylight, hangar lighting, flashlight, or droplight and may require removal or opening of access panels or doors. Stands, ladders, or platforms may be required to gain proximity to the area being checked."

Replacement

(g) Within 300 flight hours after the effective date of this AD, replace the flexible supply lines with new rigid tubes, in accordance with the Accomplishment Instructions of Gulfstream Alert Service Bulletin 200–35A–202, Revision 1, dated August 27, 2003. This replacement terminates the repetitive inspection requirement of paragraph (f) of this AD.

Alternative Methods of Compliance (AMOCs)

(h) The Manager, International Branch, ANM–116, Transport Airplane Directorate, FAA, has the authority to approve AMOCs for this AD, if requested in accordance with the procedures found in 14 CFR 39.19.

(i) Israeli airworthiness directive 35–03–07–12, dated July 21, 2003, also addresses the subject of this AD.

The Proposal

This notice proposes to amend Part 71 of the Federal Aviation Regulation (14 CFR Part 71) to establish Class E airspace designated as a surface area for Colonel James Jabara Airport at Wichita, KS. Controlled airspace extending upward from the surface of the earth is needed to contain aircraft executing instrument approach procedures. Weather observations would be provided by an Automated Surface Observing System (ASOS) and communications would be direct with Wichita Approach Control. The area would be depicted on appropriate aeronautical charts.

Class E airspace areas designated as surface areas are published in Paragraph 6002 of FAA Order 7400.9M, dated August 30, 2004, and effective September 16, 2004, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

The Proposed Amendment

In consideration of the foregoing, the Federal Aviation Administration proposes to amend 14 CFR part 71 as follows:

1. The authority citation for part 71 continues to read as follows:

§71.1 [Amended]

2. The incorporation by reference in 14 CFR 71.1 of Federal Aviation Administration Order 7400.9M, Airspace Designations and Reporting Points, dated August 30, 2004, and effective September 16, 2004, is amended as follows:

Paragraph 6002 Class E Airspace Designated as Surface Areas.

ACE KS E2 Wichita Colonel James Jabara Airport, KS

Wichita, Colonel James Jabara Airport, KS (Lat. 37°44′51″ N., long. 97°13′16″ W.)

Within a 4-mile radius of Colonel James Jabara Airport; excluding that airspace within the Wichita Mid-Continent Airport, KS Class C airspace area and the Wichita, McConnell AFB, KS Class D airspace area.

Issued in Kansas City, MO, on October 29, 2004.
