

Process to Date. Wind assessments began in October 2000. Surveys for sensitive plant and wildlife species are being initiated in the spring of 2001. Scoping will help identify what additional studies will be required.

Alternatives Proposed for Consideration. The alternatives include the proposed action (executing a power purchase agreement with Blackfeet I for up to 36 to 66 MW of electrical energy from the proposed Blackfeet Wind Project and contracting for transmission), and the No Action alternative.

Public Participation and Identification of Environmental Issues. For other wind projects, noise, visual impacts, impacts on cultural resources, and effects on sensitive plant and animal species have been identified as potential environmental issues. BPA has established a 30-day scoping period during which affected landowners, concerned citizens, special interest groups, local governments, and any other interested parties are invited to comment on the scope of the EIS. Scoping will help BPA identify the range of environmental issues that should be addressed in the EIS. When completed, the Draft EIS will be circulated for review and comment, and BPA will hold at least one public comment meeting for the Draft EIS. BPA will consider and respond in the Final EIS to comments received on the Draft EIS. The Final EIS is expected to be published in early summer 2002. BPA's subsequent decision will be documented in a Record of Decision. The EIS will satisfy the requirements of the National Environmental Policy Act.

Issued in Portland, Oregon, on April 6, 2001.

ANR Pipeline Co.; Notice of Settlement Agreement

April 10, 2001.

Take notice that on April 5, 2001, ANR Pipeline Company (ANR), Chevron U.S.A. Inc., Pioneer Natural Resources USA, Inc. (successor-in-interest to Mesa Petroleum Company), ONEOK Resources Company (successor to

ONEOK Exploration Company), BP Exploration and Oil, Inc., Kennedy & Mitchell (wholly-owned subsidiary of Harken Energy Corporation), John F. Mitchell, Beren Corporation, Pickrell Drilling Company and Mid-Continent Energy Corporation (collectively referred to as Signatory Parties) filed a Stipulation and Agreement (Settlement) under Rule 602 of the Commission's Rules of Practice and Procedure in the captioned docket. A copy of the Settlement is available for public inspection in the Commission's Public Reference Room and may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance).

Signatory Parties state that the Settlement eliminates 49 of ANR's 56 refund claims and significantly reduces the refund burden of the remaining producers or working interest owners. Specifically, the Settlement will result in the full and complete discharge of each signatory producer or working interest owner from all liability for refunds to ANR attributable to reimbursements of Kansas ad valorem taxes, the release of each signatory producer or working interest owner's claims against its royalty owners with respect to refunds on ANR's system, and the termination of all related proceedings pending before the Commission as they relate to ANR's refund claims. Finally, the Settlement will result in total net refunds to ANR of \$339,588, which represents ANR's forgiveness of 70% of the total refunds it calculated to be due.
