[Program Announcement 04082]

Communication and Technical Assistance Support for HIV/AIDS Prevention Programs; Notice of Intent To Fund Single Eligibility Award

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the intent to fund fiscal year (FY) 2004 funds for a cooperative agreement program for support of CDC HIV related policies and programs by facilitating communication and problem solving with State and territorial health department HIV/AIDS Directors and providing technical assistance (TA) to them. The Catalog of Federal Domestic Assistance number for this program is 93.941.

B. Eligible Applicant

Assistance will be provided only to the National Alliance of State and Territorial AIDS Directors (NASTAD). No other applications are solicited or will be accepted.

NASTAD is the appropriate and only qualified agency to provide the services specified under this cooperative agreement because:

- The activities supported under this cooperative agreement can only be provided by an organization that formally represents the interests of the HIV/AIDS Program Directors of State and territorial health departments.
- NASTAD is the only officially established organization that represents the State and Territorial AIDS Directors in all 50 States and all U.S. Territories.

NASTAD was formed by the States to represent their interests to other government agencies.

- NASTAD draws upon its membership to provide input on the development and implementation of HIV policies and programs. It is able to facilitate multi-jurisdictional involvement on these issues. NASTAD regularly keeps its members informed about relevant issues.

- NASTAD members provide peer-to-peer assistance on the implementation of new policies and programs. These members share their experience so other State programs can benefit.

C. Funding

Approximately \$1,368,662 is available in FY 2004 to fund this award. It is expected that the award will begin on or before April 1, 2004, and will be made for a 12-month budget period within a project period of up to 5 years. Funding estimates may change.

D. Where to Obtain Additional Information

For general comments or questions about this announcement, contact: Technical Information Management, CDC Procurement and Grants Office, 2920 Brandywine Road, Atlanta, GA 30341-4146, Telephone: 770-488-2700.

For technical questions about this program, contact:

Bob Kohmescher, Project Officer, Centers for Disease Control and Prevention, National Center for HIV, STD and TB Prevention (NCHSTP), Division for HIV/AIDS Prevention, 1600 Clifton Road, Mailstop E-35, Telephone: 404-639-1614, E-mail: rnk1@cdc.gov.

Dated: March 19, 2004.

Edward Schultz,

Acting Director, Procurement and Grants Office, Centers for Disease Control and Prevention.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

Statement of Organization, Functions, and Delegations of Authority

Part C (Centers for Disease Control and Prevention) of the Statement of Organization, Functions, and Delegations of Authority of the Department of Health and Human Services (45 FR 67772-76, dated October 14, 1980, and corrected at 45 FR 69296, October 20, 1980, as amended

most recently at 69 FR 11444-11445, dated February 10, 2004) is amended to reflect the establishment of the Office of Genomics and Disease Prevention within the Office of the Director, Centers for Disease Control and Prevention.

Section C-B, Organization and Functions, is hereby amended as follows: Add the following item to the mission statement for the *Office of the Director (CA)*:

(15) provides leadership, policy guidance, coordination, technical expertise, and services to promote the development and implementation of the Agency's Genomics Program.

After the mission statement for the Information Technology and Services Office (CA)9, insert the following:

Office of Genomics and Disease Prevention (CAK). The Office of Genomics and Disease Prevention (OGDP) provides leadership, policy guidance, coordination, technical expertise, and services to promote the development and implementation of the agency's genomics and public health initiatives. In carrying out this mission, OGDP: (1) Advises the CDC Director on the integration of genomics into health research and practice issues relevant to the agency; (2) assesses evolving research advances in genomics with emphasis on their relevance to public health issues and, in cooperation with federal and national institutions, identifies and develops activities for applying CDC's technical expertise for maximum public health benefit; (3) collaborates with CDC Centers/Institute/Offices (CIOs), other federal agencies, countries, and organizations, as appropriate, to assist CIOs in the development of appropriate policy for the use of genomics within health research and practice initiatives for which they have responsibility; (4) coordinates plans for the allocation of genomics health resources and assists in the development of external funding sources for programs and projects; (5) coordinates cross-cutting CDC genomics and public health enterprises; (6) provides leadership in the development and implementation of strategic planning that extends the CDC Genomics and Disease Prevention Strategic Plan—Integrating Advances in Human Genetics into Public Health Action (1997) in the development of institutional capacity; (7) coordinates collaborations with external agencies, academia, and private industry partners, including administration, budgets, and technical assistance to assure that agency obligations are met; (8) guides and coordinates activities to integrate genomics competency into national
