

statement regarding the information and representations sufficient to support its approval for registration as an SDR and SIP.¹⁴⁶

ISDA Letter II included three requests with respect to the DDR Application. First, ISDA stated that the DDR Rulebook should “discuss ‘Counterparty 2’ identifiers that will be permitted under the new [CFTC] swap data reporting rules.”¹⁴⁷ To the extent that this suggestion involves changes to DDR’s systems, policies, and procedures for complying with future CFTC requirements, they are not part of DDR’s existing systems, policies, and procedures and thus are not germane to the application being considered by the Commission. However, the Commission expects that DDR will, in the future, explain to its participants how changes made to the systems, policies, and procedures for complying with CFTC swap data reporting requirements will impact the reporting of security-based swap transactions.

Second, ISDA expressed support for the approach to unique trade identifiers in the DDR Rulebook, but for clarity requested adding appropriate references to the Unique Swap Identifier (“USI”) required by CFTC rules.¹⁴⁸ The no-action statement in the ANE Adopting Release does not impose any obligations on DDR to utilize a particular vocabulary when referring to data elements that will be utilized for both SEC and CFTC transaction reporting, so this request does not affect the Commission’s evaluation of the DDR Application against the relevant statutory standards for registration as an SDR and as a SIP.

Third, ISDA notes that, although the specifications in the DDR Rulebook “technically align” with the SEC requirement that an SDR publicly disseminate immediately upon receipt, SDRs are also built to delay public dissemination under CFTC requirements. ISDA suggests that complying with the SEC requirement would require SDRs to incur the cost of adding functionality to disseminate

immediately under Regulation SBSR, and ISDA therefore requests that the SEC align its requirement with the CFTC requirement.¹⁴⁹ To the extent ISDA is requesting that the Commission modify the no-action statement in response to ISDA’s comment, the Commission declines to do so. Furthermore, because this comment pertains to a Commission position and not to the DDR Application, it does not affect the Commission’s review of the DDR Application under the relevant statutory standards for registration as an SDR and as a SIP.¹⁵⁰

IV. Evaluation of DDR’s Application and Commission Findings

Consistent with the standard for registration previously described in Part II.B,¹⁵¹ the Commission has considered whether DDR is so organized, and has the capacity, to be able to assure the prompt, accurate, and reliable performance of its functions as an SDR, comply with any applicable provisions of the securities laws and the rules and regulations thereunder, and carry out its functions in a manner consistent with the purposes of Section 13(n) of the Exchange Act and the rules and regulations thereunder. The Commission finds that DDR meets these criteria for registration as an SDR for the reasons described throughout this order.

To evaluate DDR’s application to register as a SIP, and consistent with the

¹⁴⁹ See *id.* at 5.

¹⁵⁰ Under the CFTC’s reporting rules, an SDR must publicly disseminate swap transaction and pricing data as soon as technologically practicable after such data is received, unless such swap transaction and pricing data is subject to a time delay described in § 43.5, in which case the swap transaction and pricing data shall be publicly disseminated in the manner described in § 43.5. See 17 CFR 43.3(b)(1). In addition, Appendix C to Part 43 provides clarification of the time delays for public dissemination set forth in § 43.5. An SDR subject to the CFTC’s Part 43 rules must disseminate transaction and pricing data with a time delay if the transaction falls within § 43.5, and must disseminate transaction and pricing data “as soon as technologically practicable” if it does not. The Commission’s no-action statement recognized that security-based swap transactions do not fall within § 43.5 or Appendix C of Part 43. See ANE Adopting Release, *supra* note 13, at 6347. Accordingly, an SDR, when utilizing CFTC rather than SEC protocols for dissemination of a security-based swap transaction, would not impose the time delay required for a swap transaction that falls within § 43.5. Nevertheless, to offer some accommodation for certain large-sized security-based swaps based on a single credit instrument or a narrow-based index of credit instruments, the Commission established a size cap of “\$5MM+” for any transaction having a true notional size of \$5 million or greater. As explained in the Commission’s no-action statement, this cap is also applied by the Financial Industry Regulatory Authority when disseminating transaction reports of economically similar cash debt securities. See *id.* at 6347, n.768.

standard for registration previously described in Part II.B,¹⁵² the Commission has considered whether DDR is so organized, and has the capacity, to be able to assure the prompt, accurate, and reliable performance of its functions as a SIP, comply with the provisions of the Exchange Act and the rules and regulations thereunder, carry out its functions in a manner consistent with the purposes of the Exchange Act, and, insofar as it is acting as an exclusive processor, operate fairly and efficiently. The Commission finds that DDR meets these criteria for registration as a SIP for the reasons described throughout this order.

V. Conclusion

For the reasons discussed above, the Commission finds that DDR meets the applicable requirements for registration as an SDR, including those standards set forth in Section 13(n) of the Exchange Act and Commission rules and regulations thereunder, and the applicable requirements for registration as a SIP under Section 11A(b) of the Exchange Act.

It is hereby ordered that the application for registration as a security-based swap data repository and a securities information processor filed by DTCC Data Repository (U.S.), LLC (File No. SBSDR–2020–01) pursuant to Sections 13(n) and 11A(b) of the Exchange Act be, and hereby is, *approved*.

By the Commission.

Jill M. Peterson,
Assistant Secretary.
