

We use a stratified sampling technique for categories 1 through 8; categories 9 and 10 use intercept surveys. We use a general sampling technique for categories 11 through 13. The randomize sample we pull from the database will include an estimated 1,200 persons unless the database population is less than 1,200, at which point we will survey all. We set an 80% response rate goal. Whenever possible, we choose telephone surveys over mail surveys.

We develop questionnaires with the help of focus groups from around the country. We ask questions in the following general areas:

- (1) Program specific (i.e., processing permits, recordation of mining claims, facilities and access to public land for recreation);
- (2) Service delivery;
- (3) Management practices;
- (4) Resource protection;
- (5) Rules, regulations, and policies;
- (6) Communication with the public;
- (7) Overall satisfaction; and
- (8) General demographics.

#### IV. Requests for Comments

We are particularly interested in comments on the actions discussed in Items II and III. We provide the following guidelines to assist you in responding.

##### *General Issues*

A. Is the proposed collection of information in categories 1 through 13 (see III) necessary, taking into account accuracy, adequacy, and reliability, and the agency's ability to process the information in a useful and timely fashion?

B. What enhancements can the BLM and USDAFS make to the quality, utility, and clarity of the information to be collected?

##### *As a Potential Respondent*

A. We estimate the average public reporting burden for a customer survey is 15 minutes per response (13,000 respondents per year  $\times$  15 minutes per response = 3,250 hours annually). For comment cards, we estimate the average public reporting burden is three minutes per response (30,000 respondents per year  $\times$  three minutes per response = 1,500 hours annually).

The information collection burden includes the total time, effort, or financial resources we expend to generate, maintain, retain, or disclose or provide the information including to:

- (1) Review instructions;
- (2) Develop, acquire, install, and utilize technology and systems for purposes to collect, validate, verify,

process, maintain, disclose, and provide information;

(3) Adjust the existing ways to comply with any previously applicable instructions and requirements;

(4) Train personnel to respond to a collection of information;

(5) Search data sources;

(6) Complete and review the collection of information; and

(7) Transmit or otherwise to disclose the information.

Please comment on (1) the accuracy of our estimate and (2) how the agencies could minimize the burden of the collection information, including the use of automated collection techniques.

B. The BLM and USDAFS estimate that respondents will incur no additional costs for reporting other than the time required to complete the collection. The estimates should take into account the costs associated to generate, maintain, and disclose or provide information.

C. Do you know of any other Federal, State, or local agency collecting similar data? If you do, specify the agency, collection element(s), and the methods of collection.

##### *As a Potential User*

Are there any alternative sources of data? Do you use them? If so, what are their deficiencies and/or strengths?

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will also become a matter of public record.

Dated: May 29, 2001.

**Michael Schwartz,**  
*BLM Information Collection Clearance Officer.*
