

reliable dynamic E911 location identification for interconnected Voice over Internet Protocol (VoIP) services;

- Recommending ways, including best practices, to improve Emergency Alert System (EAS) operations and testing and to ensure that all Americans, including those living in rural areas, the elderly, people with disabilities, and people who do not speak English, have access to timely EAS alerts and other emergency information;

- Recommending methods to measure reliably and accurately the extent to which key best practices are implemented both now and in the future; and

- Making recommendations with respect to such additional topics as the FCC may specify.

Membership

The Commission seeks nominations and expressions of interest for membership on the Council. Members of the Council will be appointed from among public safety agencies, consumer or community organizations or other non-profit entities, and the private sector to balance the expertise and viewpoints that are necessary to effectively address the issues to be considered. The Commission is particularly interested in receiving nominations and expressions of interest from individuals and organizations in the following categories:

- Public safety agencies and/or organizations as well as other state, tribal and/or local government agencies and/or organizations with expertise in communications issues;

- Federal government agencies with expertise in communications and/or homeland security issues;

- Communications service providers, including wireline and wireless communications service providers, broadcast radio and television licensees, cable television operators and other multichannel video programming distributors, satellite communications service providers, interconnected Voice over Internet Protocol and other IP-enabled service providers;

- Consumer or community organizations, such as those representing people with disabilities, the elderly and those living in rural areas; and

- Qualified representatives of other stakeholders and interested parties with relevant expertise.

Members of the CSRIC will be appointed either as Representatives or as Special Government Employees (SGEs), as necessary.

Nominations/Expressions of Interest Procedures and Deadline

Nominations should be received by the Commission as soon as possible, but no later than May 11, 2009.

Nominations received after this date may not be considered. Organizations should nominate their Chief Executive Officer or other senior-level official in the organization. No specific nomination form is required. However, each nomination must include the following information:

- Name, title and organization of the nominee and a description of the sector or interest the nominee will represent;
- Nominee's mailing address, e-mail address, telephone number, and facsimile number; and
- A statement summarizing the nominee's qualifications and reasons why the nominee should be appointed to the CSRIC.

Please note this Notice is not intended to be the exclusive method by which the Commission will solicit nominations and expressions of interest to identify qualified candidates. However, all candidates for membership on the Council will be subject to the same evaluation criteria.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[DA 09-796]

Requests Nominations by May 8, 2009 for Membership on the Technological Advisory Council

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: The Federal Communications Commission Technological Advisory Council (TAC) is in the process of being reestablished. This will enable the Commission to receive expert advice and recommendations on critical technologies and services fundamental to the growth of telecommunications. This information is necessary for the Commission to effectively fulfill its responsibilities under the Communication Act.

DATES: Nominations are due by May 8, 2009.

ADDRESSES: Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Jon Peha, 202-418-2406.

SUPPLEMENTARY INFORMATION: The Federal Communications Commission Technological Advisory Council (TAC) is in the process of being reestablished. The Commission is requesting nominations for membership on the TAC for its next two year cycle.

In reestablishing the TAC, the Commission noted that rapid advances in technology have resulted in innovations in how telecommunications services are provided to, and are accessed by, users of those services. Many of these advances create challenges and opportunities for the growth of telecommunications and use of the radio spectrum. The Commission must remain abreast of new developments in technology so that it can effectively fulfill its responsibilities under the Communications Act. The purpose of the TAC is to provide technical advice to the Federal Communications Commission and to make recommendations on the issues and questions presented to it by the FCC. The TAC will address questions referred to it by the FCC Chairman, the FCC Chief Technologist, the Chief of the FCC Office of Engineering and Technology, or the TAC Designated Federal Officer. The questions referred to the TAC will be directed to technological and technical issues in the field of communications. Among the potential topics that the TAC may consider are spectrum policy, broadband technology and deployment, communications technology that enhances and supports public safety, Internet security, and communications technology required to support emerging systems such as the smart grid and tele-health applications.

The TAC will meet three to five times per year, with the possibility of more frequent meetings by informal subcommittees. Meetings of the Committee shall be open to the public. Timely notice of each meeting will be published in the **Federal Register** and will be further publicized through other appropriate vehicles.

The Commission will provide facilities necessary to conduct meetings. Members of the Council will serve without any government compensation, and will not be entitled to travel expenses, per diem or subsistence allowances. The Council will consist of recognized technical experts in telecommunications and related fields.

The Commission will accept nominations for the Council through May 8, 2009. The Commission, at its discretion, may consider nominations

received after this date, but consideration of late submissions is not guaranteed. Individuals may apply for, or nominate another individual for, membership on the Council. Each nomination or application must include:

a. The name and title of the applicant or nominee and a description of the interest the applicant or nominee will represent;

b. The applicant's or nominee's mail address, e-mail address, telephone number, and facsimile number (where available);

c. Reasons why the applicant or nominee should be appointed to the Council; and the basis for determining the applicant or nominee has achieved peer recognition as a technical expert.

Federal Communications Commission.

Jon M. Peha,

Chief Technologist.

BILLING CODE 4140-01-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Medicare & Medicaid Services

Privacy Act of 1974; Notice of Modified System of Records

AGENCY: Department of Health and Human Services (HHS), Centers for Medicare & Medicaid Services (CMS).

ACTION: Notice of a modified system of records.

SUMMARY: In accordance with the requirements of the Privacy Act of 1974, CMS is proposing to make minor amendments to an existing system of records (SOR) titled, "Performance Measurement and Reporting System (PMRS)," System No. 09-70-0584, published at 72 **Federal Register** 52133 (September 12, 2007), as amended by 73 **Federal Register** 80412 (December 31, 2008). PMRS serves as a master system of records to assist in projects that provide transparency in health care on a broad-scale enabling consumers to compare the quality and price of health care services so that they can make informed choices among individual physicians, practitioners, and other providers of services. We are making minor amendments to PMRS to include an additional legal authority: Section 109 of the Tax Relief and Health Care Act of 2006 (TRHCA) (Pub. L. 109-432). Section 109 of the TRHCA amended Section 1833(t) of the Social Security Act (42 U.S.C. 1395l(t)). This section mandates the establishment of a program for quality data reporting for hospital outpatient services and allow for the establishment of a program to require quality data reporting for ambulatory surgical center services. Accordingly, CMS is adding section 109 of TRCHA (42 U.S.C. 1395l(t)) and section 1833(t) of the Act to the PMRS' legal authority section.

The primary purpose of this system is explained in 72 FR 52133 (2007) and 73 FR 80412 (2008). We have provided background information about this modified system in the **SUPPLEMENTARY INFORMATION** section below.

DATES: *Effective Dates:* The minor amendments contained in this notice are effective upon publication in the **Federal Register**.
