

The type of information collected in this collection includes information on the applicants, transferors, transferees, permits, vessels, and Chinook salmon PSC transfer data. This information collection contains the following AFA permitting and transfer requirements:

- *The AFA Permit:* Rebuilt, Replacement, or Removed Vessel Application is submitted by an owner of an AFA vessel to notify NMFS the vessel has been rebuilt; to request an AFA permit for a replacement catcher vessel, catcher/processor, or mothership; or to request removal of an AFA catcher vessel that is a member of an inshore cooperative and assign its catch history to another vessel or vessels in the same cooperative.

- The Application for AFA Inshore Catcher Vessel Cooperative Permit is submitted annually by each AFA inshore catcher vessel cooperative to obtain an AFA Inshore Catcher Vessel Cooperative Permit and identify the vessels and processors that will be participating in the BSAI pollock fishery prior to the start of each fishing year.

- The AFA Inshore Vessel Contract Fishing Notification is submitted by an AFA inshore cooperative that intends to contract with a non-member vessel to harvest a portion of the cooperative's annual pollock allocation to notify NMFS of vessels that might be reporting with an alternative cooperative ID.

- The Application for Approval as an Entity to Receive Transferable Chinook Salmon Prohibited Species Catch (PSC) Allocation is submitted by an entity representing the catcher/processor sector or the mothership sector to request approval to receive transferable Chinook salmon PSC allocations on behalf of members of the sector. Once approved, an entity is not required to reapply for or renew its status. Entities sometimes submit amendments to update contact and other information related to the entity and its members.

- The Application for Transfer of Bering Sea Chinook Salmon PSC Allocations is submitted by an authorized representative of the catcher/processor sector, the mothership sector, an inshore cooperative, or a CDQ group to transfer Chinook salmon PSC allocations to another entity's account.

Title of Collection: Private School Universe Survey (PSS) 2023–24 Data Collection Revision.

OMB Control Number: 1850–0641.

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 27,553.

Total Estimated Number of Annual Burden Hours: 3,897.

Abstract: The National Center for Education Statistics (NCES), within the U.S. Department of Education, conducts the Private School Universe Survey (PSS), a national survey of private elementary and secondary schools. The PSS is designed to collect biennial data on the total number of private schools, teachers, and students; and to create an NCES universe frame of private schools that serve as a sampling frame for NCES surveys. This survey is an ongoing project to improve NCES universe and sample data on private schools.

The request to conduct the 2023–24 data collection and the 2025–26 PSS list frame building operations was approved in April 2022 (1850–0641 v.14). This revision addresses changes to communication materials and modifications to the questionnaire. Changes to the communications reflect a shift towards focusing on the benefits of participating in the PSS, including a school's listing on NCES Private School Search website and having an active NCES ID. Modifications to the questionnaire include the addition of an item assessing the use of virtual learning in private schools and modifying item wording to better align item with item wording on the National Teacher and Principal Survey (NTPS), which will be in the field for a sample of private schools during the 2023–24 school year as well.
