BILLING CODE 4000-01-P

DEPARTMENT OF ENERGY

Bonneville Power Administration

Agency Information Collection Activities: Proposed Collection; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: Bonneville Power Administration (BPA), DOE.

ACTION: 30-Day notice of submission of information collection approval from the Office of Management and Budget (OMB) and request for comments.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, the Bonneville Power Administration has submitted a Generic Information Collection request (Generic ICR): "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery" to the Office of Management and Budget (OMB) for approval under the Paperwork Reduction Act (PRA) (44 U.S.C. *et seq.*).

DATES: Comments must be submitted by September 30, 2012.

ADDRESSES: Written comments may be submitted to: DOE Desk Officer, Office of Information and Regulatory Affairs, Office of Management and Budget, New Executive Office Building, Room 10102, 735 17th Street NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: To request additional information: Information Collection Clearance Officer, Christopher M. Frost, Governance and Internal Controls, DGC-7, Bonneville Power Administration, 905 NE. 11th Avenue, Portland, Oregon 97232.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer

and stakeholder feedback in an efficient, timely manner in accordance with the Administration's commitment to improving service delivery. Qualitative feedback means information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliable actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield qualitative results.

The 60-day notice was published in the **Federal Register** of December 22, 2010 (75 FR 80542).

Below we provide the BPA projected average estimates for the next three years:¹

DEPARTMENT OF ENERGY

U.S. Energy Information Administration

Request to Revise a Currently-Approved Data Collection

AGENCY: U.S. Energy Information Administration (EIA), Department of Energy.

ACTION: Notice and request for OMB review and comment.

SUMMARY: EIA has submitted a request to revise a currently-approved data collection under the provisions of the Paperwork Reduction Act of 1995 to the Office of Management and Budget (OMB). EIA proposes changes to the data collection requirements for the Forms EIA-861, "Annual Electric Power Industry Report," EIA-923, "Power Plant Operations Report," and the proposed creation of the Form EIA-861S, "Annual Electric Power Industry Report (Short)." All collection instruments are under OMB Control Number 1905-0129. The Form EIA-861 proposal is to modify the survey frame from a census of approximately 3,300 entities to a sample of approximately 2,200 entities and to estimate the total sales, revenues, and customer counts by sector. The Form EIA-861S proposal will collect data from the approximately

Average Minutes per Response: 30.

Burden hours: 2,500,000.
