## DEPARTMENT OF COMMERCE

### Bureau of the Census

[Docket No. 001115321-0321-01]

### Revisions to Shipper's Export Declaration, Commerce Form 7525-V

**AGENCY:** Bureau of the Census, Commerce.

**ACTION:** Program notice.

**SUMMARY:** This notice announces that on September 28, 2000, the Office of Management and Budget (OMB) approved use of the revised Shipper's Export Declaration (SED), Commerce Form 7525-V, and the Automated Export System (AES) for export reporting purposes. Under the OMB clearance, the Commerce Form 7525-V-Alternate (Intermodal) is eliminated as a shipper's export reporting form, and the sponsorship of the Commerce Form 7513, "Shipper's Export Declaration for In-Transit Goods," is transferred to the U.S. Army Corps of Engineers. The effective date for use of the new form is October 1, 2000. However the Census Bureau is allowing a 180 day grace period to April 1, 2001, to allow the trade community to deplete current stocks of the old forms. During the grace period, the Census Bureau will allow use of both the old and revised Commerce Form 7525-V and Commerce Form 7525-V-Alternate (Intermodal). As of April 1, 2001, only the Commerce Form 7525-V and the AES record will be accepted by the Census Bureau and the Customs Service as a means of reporting shipper's export declaration information.

**DATES:** The effective date for use of the revised SED form is October 1, 2000.

**FOR FURTHER INFORMATION CONTACT:** Requests for additional information or instructions for completion of the new form should be addressed to Jerome Greenwell, Foreign Trade Division, U.S. Census Bureau, Room 3125, FOB-3, Washington, DC 20233-0001, (301) 457-2238.

**SUPPLEMENTARY INFORMATION:** The Shipper's Export Declaration (SED) Commerce Form 7525-V and the Automated Export System (AES) reporting methods were approved under OMB clearance number 0607-0152. The

SED is a Department of Commerce Form used by the Bureau of the Census (Census Bureau) for statistical reporting purposes and the Bureau of Export Administration (BXA) for export control purposes. It also is used by the U.S. Customs Service for verifying export shipments, the Department of State, and other federal government agencies for export control purposes. The SED was revised to delete unused or outdated data fields, to make it consistent with the regulation provisions contained in the final rule published in the **Federal Register** on July 10, 2000 (65 FR 42556), and to make the data elements on the paper SED consistent with the data elements on the AES record.

The OMB clearance for the SED, Commerce Form 7525-V, and Commerce Form 7525-V-Alternate (Intermodal), the Automated Export Reporting Program (AERP), the AES, and Commerce Form 7513, "Shipper's Export Declaration for In-Transit Goods" expired on September 30, 2000. On April 28, 2000, the Census Bureau published a presubmission notice in the **Federal Register** (65 FR 24912) announcing its intent to submit a forms clearance proposal to OMB to renew its clearance for the reporting of export data using: (1) the two types of paper SEDs, Form 7525-V, and Form 7525-V-Alternate (Intermodal); and (2) the AES.

In that notice the Census Bureau also announced that it was not renewing clearance for the AERP and the Commerce Form 7513, "Shipper's Export Declaration for In-Transit Goods." With the rapid growth of the AES, the Census Bureau discontinued the AERP program as of December 31, 1999. Filers using the AERP program, which was an electronic reporting system that was strictly used for Census Bureau statistical collection purposes, are now filing their export data through the AES or are in the process of converting to the AES.

The authority for clearance of the "Shipper's Export Declaration for In-Transit Goods," Commerce Form 7513, which serves as the source document from which the official U.S. statistics on outbound in-transit waterborne shipments is collected and compiled, has been transferred to the U.S. Army Corps of Engineers. This program was transferred to the Corps, as they are the primary users of the in-transit data.

In that notice the Census Bureau also identified the revisions that were being made to the SED to bring it up to date with current regulatory and policy provisions and to make it consistent with the AES record format.

On August 21, 2000, the Census Bureau published a second notice in the
